## LAWYERS SLAP AT THE RECALL

THEY CONDEMN THE SYSTEM AS DANGEROUS TO GOOD GOVERNMENT.

## PRESENT LAWS ADEQUATE

New Plan Would Mean Incompetent Judges—Negro Question Is Settled in Ten Minutes.

By The Associated Press.

Milwaukee, Wis., Aug. 27.—Fifty-four lawyers, with at least one from each state, today completed for presentation to the American Bar Association a report denouncing as "dangerous to the country" all movements for the recall of judges or of judicial decisions.

The report cites that in Ohio the constitutional commission declined to apply recall to the judges, but provided that laws should be passed for prompt removal on complaint and hearing of judges for any misconduct involving moral turpitude. The report says this substantially is the system used in Alaska, Hawaii, New York and several other states.

Those who signed the report include Frank B. Kellogg, Minnesota; Wm. B. Hornblower, New York; Lawrence Maxwell, Ohio; Edmund F. Traub, Kentucky; and Jacob A. Dickinson, former secretary of war, who is named as one of those who originated the committee to expose the fallacy of judicial recall.

"We are pleased to report," says the committee, "that the bar associations of many states have taken action opposed to the recall of the judiciary. In numerous other states action will undoubtedly be taken."

"We maintain that the recall applied to judges will tend to deprive the public of judges of ability, character, high sense of duty and a due regard to enlightened public sentiment, and that such a judiciary is absolutely necessary to the existence of a constitutional democracy."

"The application of the recall to an ordinary official may be a question of expediency, but it is not fundamentally intended to apply it to the judiciary and is in violation of the principles of government which ages of experience have demonstrated to be wise."

**Present System Adequate.**  
In the states and in the federal government we have the right of impeachment, and in several states the right of removal of a judge by the legislature. If the report of impeachment is not sufficient, an adequate remedy can be created for the removal of a judge for conduct inconsistent with his office after complaint is made, and he is given an opportunity to be heard in his own defense. In this way the independence of the judiciary is maintained and a judge is removed simply for incapacity or misconduct in office.

"The advocates of the system claim that it is in the interest of the common people. This we deny. For more than 200 years the greatest bulwark for the protection of the mass of the people has been the courts. There never was a time in our country when any man, however poor or humble, could not apply to the courts and be assured of protection. Is it any reproach upon the courts that they have extended the same protection to the rich and powerful when assailed by popular prejudice?"

**Negro Question Settled.**  
Ten minutes was devoted to the settlement of the question whether negro lawyers should be admitted to membership. A resolution presented by Mr. Dickinson was adopted, providing that after a negro is nominated for membership his race must be indicated to the executive committee.

Attorney General George W. Wickard declared the resolution created a permanent member of Wm. H. Lewis, an assistant to the attorney general, who, with two other negro lawyers, had been uneasily by the executive committee because of their race. Lewis, Butler R. Wilson of Boston, and Wm. R. Morris of Minneapolis were then said to be regularly seated.

Many endeavors to discuss the subject, but the motion was carried before they were recognized.

**SHREVEPORT CASE AGAIN.**  
Commission Postpones Effective Date to November.

Washington, Aug. 27.—An order was issued by the interstate commerce commission today postponing the effective date of its order in the so-called "Shreveport case" from September 1 until November 1, next. The order provides that freight rates from Shreveport, La., to Texas destinations shall be contemporaneously in effect from the Texas points to Shreveport. The extension of the day was due to pending litigation.

**OKLAHOMA DEMOCRATS MEET.**  
By The Associated Press.

Oklahoma City, Aug. 27.—Among the early arrivals for the state democratic convention, which will convene here tomorrow, are United States Senators Thos. P. Gore and Robert L. Owen, Congressman Scott Ferris and "Alfalfa" Bill Murray.

## WIDE MOVE TO CURB BROKERS

INTERSTATE COMMERCE AND RAILROAD COMMISSIONS TO TAKE HAND.

## OUTLET AT NEW ORLEANS

With This Secured for Texas, Speculators Will Compete and Lower Ocean Freight Rates.

By The Associated Press.

To check what Waco cotton men term "highway robbery manipulations" and to save the Texas farmers hundreds of thousands of dollars, a far-reaching move was started yesterday in this city against the ship agents and speculators who, it is claimed, are gobbling up the steamship space and arbitrarily forcing the shipping rates up \$1 and \$1.50 per bale more than is justified. The plan is to hurt a bomb into the brokers' own ranks, creating keen competition among themselves and thereby forcing the rates down.

This result will be brought about, the Waco exporter who is back of the move, says, by invoking the aid of the interstate commerce commission and Texas railroad commission. Through these organizations it is hoped to secure railroad rates that will permit Texas cotton to go to New Orleans as cheap as to Galveston. At the present time, the rate to New Orleans is so much higher than the rate to Galveston, where they say they are at the mercy of the speculators. If an outlet to New Orleans can be secured, that will give Texas some relief in that it would cause competition for the cotton among the New Orleans and Galveston brokers.

With the campaign to effect a great saving for the Texas producers launched, and a line of action mapped out, some of the much needed relief is expected to accrue in the early future.

The present conditions are critical for the exporters and the producers. There is a great scarcity of steamship space, far inadequate to handle the crop that is fast flowing into Galveston. Congestion occurs, however, deliveries must be made. All these facts work for the advantage of the speculators who grab up the ocean steamship space and dictate to the exporters what they must pay in order to move their cotton.

## FACILITATE MAIL WORK

HITCHCOCK HAS PLANS TO MEET NEW SUNDAY CLOSING LAW.

Transient Mail Must Be Handled, and Much Destined for Lock Boxes Will Be Placed.

By The Associated Press.

Washington, Aug. 27.—Plans were perfected by Postmaster General Hitchcock today whereby the administration of the new law prohibiting delivery of mail on Sundays will have no serious effect upon handling important mail matter.

Holders of lockboxes at first and second class postoffices will have access to them as usual, although no mail deliveries will be made on the street or at postoffice windows. Mail for hotel guests and newspapers will be delivered through their lock boxes by a simple arrangement of having mail sorted on the railway cars before it reaches its destination. Such mail will be distributed immediately upon its arrival at the office of destination.

This distribution will require a minimum of Sunday work and the distribution of other mail received Sunday so it may be delivered by carriers on their first tour Monday.

After an all-day conference with experts of his department, Postmaster General Hitchcock tonight issued a statement explanatory of his administration of the new law. His assurance is that there will be no embarrassment to the business public and that, through the arrangements he outlines, urgent mail will reach its destination promptly. Orders necessary to carry Mr. Hitchcock's plan into effect will be issued immediately. The postmaster general's statement said in part:

"There appears to be some misapprehension as regards the provision in the postal bill relating to the delivery of mail on Sunday. This provision does not require the closing of post offices on Sunday, which would be quite impossible, owing to the fact that the transient mail has to be sorted and also the mail collected in cities for other destinations. Failure to move this mail would mean a serious clogging of the whole system and consequent inconveniences to the public."

"At present most of the mail received Sunday for delivery by carrier Monday morning is worked after midnight on Sunday and therefore the law will not affect this mail. It will be delivered as prompt as hitherto."

## GOV. MARSHALL HITS TRUSTS

RIDICULES REPUBLICAN AND ROOSEVELT PLAN OF HANDLING THEM.

## HE OFFERS A SOLUTION

Advocates Revocation of Charters of Corporations Guilty of "Industrial Adultery."

By The Associated Press.

Augusta, Maine, Aug. 27.—Governor Marshall of Maine, Democratic nominee for the vice presidency, discussed the trust question in plain words here tonight, delivering the second of his three set campaign speeches in Maine. Tomorrow night he will speak he advocated summary revocation of their state-given charters by the states which gave them.

He disclaimed any desire or intent to become personal in his speeches. "All my public utterances are intended to be without venom," he said. Continuing, in part he said:

**Attacks System, Not Men.**  
"I want to attack systems and not men. Profanity is wrong, yet many good men swear. Because they are good they ought not to expect me to stand for their profanity. A good man is as likely to go to sleep at a place of danger as a bad man. Because he is good shall I not awaken him, although I must jolt him to do it?"

"I know a protected manufacturer who is not a pillar of society. But can this man who insists that he must have protection tell me he differs from the man who goes to the overseer of the poor and says he must have help to live? Perhaps he has never thought of it in that light. And when he gets over his anger, his pride will assert itself and he will say, 'I can and will get along without help.' He ought not to get mad at me. Some men would say he is not a beggar, but a strong-armed man. That would be worse."

"Is a man honestly believes in this theory of taxation and his judgment and conscience approve it, it is easy for him to take the next step toward a monopoly. The Democratic platform says a private monopoly is indefensible."

"The regular Republicans are going according to the legislation of the supreme court to dissolve trusts. When we see the effect of these dissolutions on their stocks and bonds, a sense of gratitude suggests that on the first moonlight night of the October term the trust quartette serenade the court with 'Hallelujah, Thine the Glory, Hallelujah, Amen.'"

"Hallelujah, Thine the Glory, Dissolve Us Again."

**Criticizes Roosevelt.**  
The Progressives say let not the people be dismayed. We have the man who can make the trusts come up and eat out of his hand. And they surely have. If his record is any index of results, we may be assured that the prover will be not only good but nutritious. He will suspend the operation of the criminal laws at any time rather than endanger the liberty of a campaign contributor who wants to make money unlawfully. He did this for the harvester and steel trusts. When he began his career as a trust buster, there were only 149 trusts with four billions of capital. At the end of his career there were more than 16,000 with more than \$1,000,000,000 of capital."

**Offers Solution.**  
"How reach the question? Forfeit the charter of every corporation which carries another or, by gentlemen's agreement lives in notorious and open adultery with another. Can this be done? Why not? A corporation is only a creature of the state organized to do definite things. It is only artificial with conferred powers. With limited liability a corporation's powers are also limited to those expressly conferred by its charters. A few revocations and a few shaved heads will take the swelling out of some fortunes and waim others not too swell."

"There is another solution. Make the lawyer who counsels aid, abets the formation of a trust criminally liable. He should be held responsible. He would not buy a jimmy for a prospect. He would not think that many a contract which is against the laws is more burglary than a jimmy. If he will not quite make him participate criminals."

**T. R. MEN ON REGULAR TICKET.**  
By The Associated Press.

Topeka, Kan., Aug. 27.—By a vote of 50 to 42 the Kansas republican party council late tonight defeated a resolution to force the Roosevelt electors on an independent ticket. The report of the vote means that the Roosevelt presidential electors chosen in the recent state primary will appear on the republican ballot in the fall election unless the supreme court of the United States, which is considering the case, rules against them.

**GRAIN CONFERENCE HELD.**  
By The Associated Press.

Chicago, Aug. 27.—Resolutions demanding a better and more uniform system of grain inspection were adopted today at the closing session of a conference between officers of state and national grain dealers' associations.

## MADERO IS CHAGRINED

OROZCO'S ESCAPE IS DISTASTEFUL TO GOVERNMENT OFFICIALS.

## CAMPAIGN IN SONORA

Governor of the State Is Authorized to Use All Means He Can for Handling Situation.

By The Associated Press.

Mexico City, Aug. 27.—Jose Maria Maytorena, governor of the state of Sonora, became the man of the hour today when he was authorized by the central government to use all means at his disposal for the handling of the revolutionary situation in his state.

In today's cabinet meeting no attempt was made to disguise the disappointment of the government that the revolutionary forces had been able to make their way through the federal lines and invade the Pacific coast state. When Orozco left Juarez it was stated officially that every pass to the west had been closed and that it would be impossible for the rebel leader to get through the net laid for him. Semi-official papers in the capital proclaimed the drawing in of the net which was to end the revolution, and the chief of President Madero's cabinet said it could be but a few days before the head of the movement in the north was a prisoner. The government is plainly worried over the new turn of things and is trusting to a great extent to the patriotism of the citizens of the western states in the new emergency.

Reports from the south are more encouraging, but are scarce. For the first time in several weeks the governor of Morelos has reported that there has been no Zapatista activity in his state during the day. News from the state of Mexico is under the ban.

Talk of friction among the commanding officers in the south is common, although denied in official circles, and it is expected that one or more of the new appointees to that district may be recalled at any time.

## CHASE REBELS IN TRAIN.

By The Associated Press.

Juarez, Aug. 27.—A federal troop with 300 infantry and two machine guns has left Juarez over the Central in pursuit of the rebel band that destroyed the bridges on the Mexico northwestern.

## MORMONS TO CONTINUE ARMED

By The Associated Press.

Washington, Aug. 27.—Whether the American Mormons who fled from Mexico during the acute stages of the rebellion shall be permitted to bear arms upon their return to their homes in Mexico is a question raised by Gen. Steever in one of his reports today to the war department. War department officials are inclined to believe this to be a question which should be settled by the Mexican government, and the American border patrol should allow the returning refugees to take arms with them for their own protection if they have no purpose to violate the neutrality laws by taking part in the rebellion on the other side.

## COLONEL NOT DICTATOR?

By The Associated Press.

Oyster Bay, Aug. 27.—It will be several days before Col. Roosevelt's letter to Senator Clapp will be made public. The colonel said tonight he did not receive until late tonight a copy of John D. Archbold's testimony before the senate investigating committee, which is to form the basis of an important portion of his letter. It is probable the letter will be given out early next week.

Plans for Col. Roosevelt's tour through Vermont were completed today. The colonel will leave Oyster Bay tomorrow evening. Although he is to cover most of the country at the rate of a state a day, he set aside three days for Vermont, because the presidential election is traditionally based on the outcome of the Vermont state election.

The progressive gubernatorial candidate in New York state will be named without any suggestions from Col. Roosevelt, he said tonight.

## LOCAL TEMPERATURES.

Daily temperatures, furnished by Dr. I. Block, voluntary weather observer, for twenty-four hours ending Tuesday at 1 p. m.: Minimum 75, maximum 90.

## Government Prediction.

Washington, Aug. 27.—Forecast: Oklahoma—Generally fair Wednesday and Thursday.

Louisiana—Fair interior, probably showers on coast Wednesday; Thursday fair.

East Texas—Generally fair Wednesday and Thursday.

West Texas—Generally fair Wednesday and Thursday.

## MEN HIGH UP IMPLICATED

GAMBLING DEN OWNERS PROMINENT IN SOCIETY AND RELIGION.

## POLICE ARE TOO LENIENT

Prosecutor Will Investigate Reason for So Few Convictions Out of Many Arrests.

By The Associated Press.

New York, Aug. 27.—Police Commissioner Waldo made public tonight a list of places raided by the police as gambling resorts during the last year and the names of the owners of the property in which the resorts were conducted. Among the names mentioned are those of many prominent men in the financial, religious and social life of the city.

The commissioner turned the list over to the district attorney who will use it as a basis of the proposed John Doe proceedings before Justice Goff next month, by which it is expected to expose police corruption. Another list containing the names of owners of disorderly houses raided during the same period, June 1, 1911, to August 1, 1912, is being prepared by Commissioner Waldo for the same purpose.

Nearly 400 places are mentioned in the gambling list which, with the statistics as to the raids made upon them, covers one hundred typewritten pages. The summing up of many of these owners as witnesses at the John Doe proceedings is understood to be part of the plan of the district attorney to determine the responsibility of the owners in allowing their property to be rented for gambling purposes, which is a misdemeanor.

Among the names of the owners is that of Sailors Snug Harbor, a wealthy charitable institution on Staten Island, the Llorid family of millionaire tobacco manufacturers, and J. Edgar Leavcraft and Edgar C. Leavcraft of the real estate firm of J. Edgar Leavcraft & company, both prominent in Methodist church and missionary work.

A notable feature of the list is the comparatively few convictions which came after the arrests made at the raids, a very large majority of the prisoners having been discharged either by the court or the grand jury. In view of testimony brought out before the grand jury investigating the graft feature of the Rosenthal murder case that the police often weakened their evidence against gamblers who had "come across" after they had been raided, it is expected the district attorney will investigate the reason for the few convictions in the proceedings before Justice Goff.

## BECKER TRIAL SEPTEMBER 11.

The trial of Lieutenant Becker will be begun on September 11 if the plans of District Attorney Whitman do not go astray. While John F. McIntyre, Becker's attorney, obtained for his client today the postponement of the date for pleading to the indictment against him until September 3, the prosecutor will interfere with his original plans for bringing Becker to trial, the first of the seven accused of the murder. The prosecution plans to have Becker enter his plea before Justice Goff and will then move that the trial be set for September 11.

Four new bank accounts of Becker were found by investigators of the district attorney today and the officials of the banks have been subpoenaed to bring the records of Becker's deposits in the institutions to the district attorney's office tomorrow.

In connection with the statement of James Marsh, a lawyer, that Becker had made most of his money in stock speculation, the district attorney has obtained evidence indicating that the most Becker ever made in this manner was \$1800.

## HIS CAR TURNS TURTLE.

Special to The Morning News.

Fort Worth, Tex., Aug. 27.—J. A. Smith, office manager for the Burroughs Adding Machine company in Fort Worth, was seriously injured Tuesday morning when his automobile "turned turtle" near Burleson. He was taken in an unconscious condition to the Stone and Webster camp nearby, where it was found that a rib had been fractured.

## TEXAS HORSE WINS DERBY.

By The Associated Press.

Readville, Mass., Aug. 27.—Cheeny, 2:07 1/4, owned by John Mulkey, a farmer boy of Waxahachie, Texas, and driven by John P. Fleming, another Texan, won the fourth renewal of the American trotting derby at the opening of the Grand Circuit meeting here today. The track was in good condition, but a strong wind made fast time impossible.

## KAISER SUFFERS RELAPSE.

By The Associated Press.

Cassel Hesse-Nassau, Aug. 27.—Emperor William, who spent some hours out of the day in working today, suffered a slight rise of temperature at bedtime. His majesty's physicians ascribed this change in his condition solely to overexertion. The general physical condition of the royal patient, however, is considerably disturbed.

## NICARAGUAN REBELS KICK

ENVOYS URGE STATE DEPARTMENT TO MAKE CHANGE IN POLICY.

## LET AN ELECTION DECIDE

Liberals Want Uncle Sam to Demand Popular Vote on Political Supremacy Dispute.

By The Associated Press.

Washington, Aug. 27.—The appearance in Washington of an active Nicaraguan junta, working in the interest of the liberal party and laying plans for bringing pressure to bear upon the state department to cause a change of policy in the handling of the Nicaraguan revolutionary problem, has added much to the interest felt by the Latin-American element here.

In the absence of any direct news from Managua in the past forty-eight hours, owing to continued interruption of telegraph service, in itself a potent sign of intense activity on the part of the rebels, the attempts here to bring about a settlement by diplomatic means are being watched with interest.

Envoys in Washington from the liberal party are Francisco Altschul, who was consul general for his country, under the Zelaya administration, in New Orleans, and Angele Ugarte, at one time Honduran minister to Washington but afterwards a liberal leader in Nicaragua. They are seeking to reach the state department with a proposal that the American naval force there be diminished to a mere legation guard and that then the American minister should demand that all factions, including the government, submit the question of political supremacy to the people in a fair election with the important stipulation that the large number of liberals disfranchised by the clerical party, should regain rights of citizenship.

It is regarded improbable that the state department would entertain any proposal for the diminution of the American force in Nicaragua so long as the present semi-anarchistic conditions continue.

## PARCELS POST PLANS.

By The Associated Press.

Washington, Aug. 27.—Plans to put in operation the new parcels post system are to be discussed tomorrow at a conference between postoffice officials and Senator Bourne, chairman of the postoffice committee. The system is to be ready for operation on Jan. 1.

## NEGRO BANDIT IS SHOT

By The Associated Press.

Gadsden, Ala., Aug. 27.—The negro desperado who shot and killed one and wounded three other men at Collinsville, Ala., early Monday morning, was probably fatally wounded tonight and captured by a posse of several hundred men, who had been chasing him through the mountains ever since the crime. Tonight the posse surrounded the negro at Chesterfield, a small town fifteen miles from Collinsville. No details of the capture are given, further than that the negro put up a desperate fight when cornered. The posse is now on the way to Collinsville with the wounded negro.

## TWO SETS OF BLOODHOUNDS.

By The Associated Press.

Chattanooga, Tenn., Aug. 27.—A special from Collinsville this afternoon says the negro burglar being chased by a mob in the mountains near there has been rounded up in a thicket. The chase has been on all day with two sets of dogs on Lookout mountain. Two of the posse shot at the negro twice last night as he attempted to cross a bridge. He went to a farm house this morning and forced a woman to give him breakfast and then left.

The Murphy boy, who was shot by the negro Sunday night, died this morning. Dr. Killian of Tusculum came up yesterday and performed an operation on him and found twelve perforations of the intestines. Oliver and Charles Hall, who were shot by the negro Sunday night, are resting well today.

## POLITICAL CONFERENCE.

By The Associated Press.

New York, Aug. 27.—After a conference between Chairman Hill of the republican national committee and Chairman Henry G. Wassen of the Pennsylvania state committee, it was reported tonight that the Pennsylvania electoral controversy would be settled by an agreement of the Roosevelt electors now on the republican ticket in the state, said to be twenty-two in number, to withdraw an run on another ticket.

## KILL MONOPOLY OF RAILROADS

TRANS-MISSISSIPPI CONGRESS WOULD DIVORCE THEM FROM SHIPS.

## SPEAKS AGAINST WARFARE

David Starr Jordan Points Out the Dire Results—Points to Canada's Peace Line.

By The Associated Press.

Salt Lake, Utah, Aug. 27.—Amendments to the interstate commerce law which would divorce absolutely common carriers on land from those on the water by prohibiting common ownership and putting water carriers under the jurisdiction of the interstate commerce commission were recommended in one of the resolutions offered at the Trans-Mississippi Congress this afternoon. Its sponsor was Judge A. E. Helm, a rate expert of Wichita, Kan. In the preamble it set forth that the work done by the government to improve harbors and deepen rivers had been rendered futile by the establishment of railroad monopolies of steamship lines.

John L. Powell's propaganda for aid to scientific farming was embodied in a resolution committing the congress to the organization of business and commercial bodies with a view to obtaining state and national legislation to promote demonstration work, schools and school courses in every community.

The resolution will be reported out of committee tomorrow.

David Starr Jordan, president of Stanford Junior university, discussed "The Case Against War" before the delegates to the Trans-Mississippi Commercial congress.

He declared that the greatest loss to a nation from war was not "the unreturning brave," but "those who might have been but never were."

Mr. Jordan said in part: "The aim of the peace movement is to do its part 'to keep unreasoning anger out of the councils of the world.' The absence of unreasoning anger between nations is the beginning of peace. But our ideals of peace are not met by 'bankruptcy armed to the teeth' the state of Europe today."

"International peace means mutual respect and mutual trust, a condition in which the boundary line between states is not a line of suspicion and hate, but, like the boundaries of provinces, a convenience in judicial and administrative adjustments."

"Such a boundary as this is found in the four-thousand-mile line which separates Canada from the United States, an undefended border which for nearly a hundred years has not known a fortress nor a warship nor a gun. There is nothing of which the two great North American nations have a greater right to be proud than this boundary of trust and confidence."

Dr. Jordan reviewed the history of wars and the money lenders who made them possible. Continuing, he said: "To control it is not necessary to own. We find the difference in our American problems of railway management. As one may control a railway without owning it, so may one control likewise a nation. It is necessary only to control its debts, or rather its demand for more debts. The debt of Europe, mostly for war and war implements and mostly contracted in the last sixty years, has been controlled, not owned, by 'Jas Consortium' of bankers, by the sixteen to eighteen families, the Rothschilds at their head, who constitute the Unseen Empire of Finance."

Coming down to the cost, the speaker went to show that without war taxes each man could have his house free, wear the money to be used in such fashion. The annual expenditure of the world on armies and navies in these times of peace, he said, passes \$4,000,000,000 every year.

Continuing his argument, Dr. Jordan said:

**Condition of Common People.**  
"It is by the condition of the common folk that the prosperity of all nations should be measured. It is not the status of the banker, the trader, the lawn-owner, the professional man, the university, the theatre, the art gallery, which determines the place of the nation. Almost the whole story of the rise of the cost of living is told in the story of the rise of taxes for war debt and war armament, the whole receipts earned and unearned of all the people of the United States, by far the richest nation on earth, barely serve to pay the bill for war expenses of the world for the year. The rich men of the world can no longer find gain in war. They want no more of it."

The biggest portion of the address was devoted to the support of the assertion that war took the best blood of any country, her young and fearless men and that only cowardly remained, and from their blood came forward new generations who hold the history of the nation in their grasp.

To war the speaker blamed the deterioration of the European races. "Where is the country squire of English life and English history? Where are his rosy cheeked and strong-limbed daughters? Where, indeed, is the typical John Bull of the time-honored cartoon? Why is it that

## SOMETHING ABSOLUTELY FOR NOTHING

**We Still Have Left 137 Nose Pieces Which We Are Giving Away to Every Person Who Buys a \$2.00 Pair of Reading Lenses**

You know it isn't very often that you really get something for nothing, but there is one time in your life that you can really get "something for nothing." Dr. W. B. Georgia & Co., Optometrists and Lens Grinders, are positively giving away eyeglass mountings worth \$3 and \$5, besides a beautiful steel leather case, plush lined, with your initials in gold on same, to everybody who buys a \$2 pair of reading lenses.

We still have left, by actual count 137 of the various makes of eyeglass

mountings, which we are going to quit handling, and which, together with reading lenses, would cost you \$5 to \$7 anywhere in this land where these makes are sold. Some of them have the handy attachment—on and off with one hand without touching the lenses. If you already have glasses it will pay you to get an extra pair for emergency sake. Think of it. Lenses and all complete for \$2. Look for the big electric spectacle sign. Dr. W. B. Georgia & Co., Optometrists and Lens Grinders, 324 Austin street, opposite Sanger Bros., ground floor.

three or four—some say eleven—millions of Englishmen are unable to earn a decent living, or any living at all, in England today?

"Why is it that these same unemployed are found unemployed in Canada, in Australia, or wherever they may go? Why is it that the tendency in all average physical standards is downward, while the standards of the best are always growing higher? The answer lies in the reversed selection of war.

"Its effects are found in England and everywhere else where strength and courage have been rewarded by glory and extinction. England has exchanged her country squires for the memorabilia of war.

"More than for all who have fallen in battle, or were wasted in the camps, England should mourn the fair women and brave men that should have been descendants of her strong and manly men. If we may personify the spirit of the nation, England should most grieve, not over her unreturning brave, but over those who might have been but never were, those so long as history lasts can never be."

### AS TO COURT PROCEEDINGS.

John W. Lawson, professor of law in the Missouri State university, has been making a study of court procedure in vogue in France, and in a recent interview he stated that one great point of contrast between American and European court procedure is the expediency with which cases are settled in Europe, as against the long delays and uncertainty in American courts. He gives it as his opinion that the delays in America are due largely to the part played by the lawyers, or, in other words, believes that the American lawyer seems to conduct the case, the judge occupying a minor position. He was deeply impressed with the expedition of a murder trial which he attended in Paris. It lasted three and a half hours. It has features of such a character that, had it been in America, it would have provided work for the court for weeks, yet no greater justice would have been done in the end, and no fairer decision reached. He believes that judges in America should be given greater power, and the work of the courts should not be harassed and impeded so much by the use of technical subtleties which lawyers are able to employ, and which are no protection to anyone, except the guilty. He is in favor of legislation fixing a miscarriage of justice as the only ground of appeal, as is the case in France and England.

### GEN. SIMON BOLIVAR BUCKNER.

General Simon Bolivar Buckner is the last of a score of lieutenant generals of the Confederacy and is its ranking officer of the living remnant of its superb armies. The old general visited Louisville recently to bid his son farewell before his departure to the Philippines, where he will hold a responsible position as an army officer. The old veteran is just passing his 90th birthday. He graduated at West Point in 1844 and afterward fought with bravery in the Mexican war, when he was breveted first lieutenant for bravery. He served eleven years in the United States army, from which he resigned in 1855. In 1864 he was made a lieutenant general in the Confederate army and he was known as the "Hero of Chickamauga." After the war he was elected governor of Kentucky, and in 1896 he ran for vice president of the United States on the Gold Democratic ticket. The veterans recently said in speaking about war times: "Thank God they are all over and peace has come to stay. I hope. We are all Americans now, and our battles are in common."

## Local News Notes

City Marshal J. A. Thompson of West, Tuesday filed a charge of carrying a pistol against R. H. Harrison.

A spark from a Cotton Belt engine caused a small fire loss to a negro shanty in East Waco last night. A small hole was burned in the roof. Central firemen responded.

Frank Cook was formally charged with theft in county court yesterday. Peter Irving, a farmer, made the complaint. He charges that Cook represented himself as being an employment agent.

Two charges of theft from person were filed in county court against "Black Stella" Turner yesterday. Two farmers from near Bart made the complaints. One claims he lost \$28 and the other names \$250. Policemen Harbour and Buchanan arrested the woman and turned her over to county officers.

Lawrence Kennedy, the ten-year-old son of County Jailor Mack M. Kennedy, had his right foot badly crushed when a horse fell on him at Fifth and Austin streets Tuesday afternoon. No bones were broken. The boy was riding the horse without a saddle. The horse slipped on the pavement and fell, pinioning the boy to the hard brick.

J. C. Wallace, the son of County Clerk C. T. Wallace and his friend, W. S. Wheatley, leave Saturday in a covered wagon on a 400-mile overland trip to Live Oak county. They expect to reach their destination in less than three weeks. Mr. Wallace will assume formal charge of his fifty-acre truck farm near Oakville, and Mr. Wheatley will spend a part of the fall and summer with him.

Mayor J. H. Mackey announced yesterday that his Labor day proclamation will be prepared during the next day or two and will be submitted to the commission at the meeting Friday. The issuance of such a proclamation is altogether the province of the mayor or himself, but as a matter of courtesy to the commission he generally submits the matter to them.

Residents of that portion of Provident Heights lying directly west of the city limits will soon petition the city commissioners to include their district in the limits of the city. Prof. R. L. Abbott, W. L. Eason and Tom Hollin will soon circulate this petition among the forty or fifty families in the district. They desire city school privileges. The commission, if it approves the request, will urge the state legislature in January to grant this extension of the city limits.

With the mercury playing up around point 100 in the glass tube, hundreds of people stopped on the sidewalk in front of Goldstein-Miguel company yesterday and viewed a display of blankets. Varied feelings came over them. The scene sent an icy and wintry sensation through some people and caused others to shrink in horror at the idea of sleep in under those big thick, fuzzy things these nights. A few days ago the coal and wood dealers sent out a warning to the people to lay in their winter supply of fuel early. The dealers in blankets and bed quilts are doing the same. The merchants are offering blankets at reduced rates.

## Personal Mention

W. H. Grider is at home from Memphis, Tenn.

C. N. Smith, ex-county commissioner, reaches home today from Colorado.

E. Pool, who is connected with the Hubbard City News, spent yesterday and last night in Waco.

W. B. Hays leaves on Thursday by the water route to New York City, where he joins his family for three weeks.

Miss Zimrue Cunningham, stenographer at the State House, has returned from a two week's stay at Hotel Galvez in Galveston.

H. Hagerorn, secretary of the Young Men's Business League, left yesterday morning for Wichita Falls to attend a meeting of the Commercial Executive Association.

Mr. and Mrs. Ed Fuller have returned from a visit to Western Tennessee. They spent much time fishing in Reelfoot lake, the scene of the famous night rider outbreaks, and caught many fish with the silver hook.

"You can't imagine how romantic it is where we live! At night when everything is asleep, sometimes I hear the nightingale singing in the woods. Then I take my horn and accompany him for hours."—Fliegende Blaetter.

## WILSON DISCUSSES FUNDS

BELIEVES IN WIDE PUBLICITY FOR CONTRIBUTIONS.

London Wants Bust in Likeness of Governor Because He Resembles English Statesman.

By The Associated Press.

Seagriff, N. J., Aug. 27.—"I am absolutely in favor of publicity and welcome a thorough investigation of my campaign expenses. I have always held that position. I have always approved of it and will welcome it as a matter of course."

In this way Gov. Wilson tonight outlined his attitude toward the Penrose resolution, calling, among other things, for an inquiry into the pre-convention campaigns of the various candidates.

The governor was asked who his principal backers were in the primary campaign.

"To tell the truth I don't know myself, except in a general way, who has charge of my campaign in the various states," replied the governor. "I merely kept a general oversight over my campaign fund. Three times we had no fund at all."

The governor said he could not even estimate his pre-convention expenses. He said most of the money, however, was raised from Princeton graduates. "Practically all the money was spent for publicity," said the governor, "for distributing news through the press. We did not ask papers to use it. We did not volunteer it. We sent it out wherever it was asked for."

The governor said that, so far as he knew, no campaign contributions were declined. With reference to the Thos. F. Ryan incident, which developed in connection with the Watterson-Harvey-Wilson episode, the governor was asked if he had not declined a contribution from Mr. Ryan.

"I personally did not," answered the governor, "but Mr. McCombs did. But I ought not to say that, because it leaves the impression that Mr. Ryan offered money. I declined to see Mr. Ryan, and Mr. McCombs declined to let anybody ask Mr. Ryan for a contribution."

The governor returned early tonight from Trenton, where he spent a busy day. All during the hours in which he was receiving callers, an Italian sculptor worked away, modeling a clay bust. A London newspaper man brought the sculptor, who has made busts of Taft and Roosevelt, informing the governor that the likeness was desired because of the governor's facial resemblance to Joseph Chamberlain, the English statesman.

Tomorrow morning Gov. Wilson expects a number of congressmen to call on him. Louis D. Brandeis of Boston, who recently announced that he would support the governor, also will be a visitor at the summer capital.

### MAKE DEMAND ON MEXICO.

State Department Will Force Fair Trial For An American.

By The Associated Press.

Washington, Aug. 27.—The state department, it was learned today, is preparing to make representations to the Mexican government to bring about a new trial for W. C. Nichols, an American, convicted of murder at Tampico. Nichols was sentenced to eight years imprisonment for killing a man, responsibility for whose death is said to have been confessed by a Mexican.

### SINGS TO BABE BY PHONE.

Putting babies to sleep by telephone is the latest innovation in social circles in Stuebenville, Ohio.

This method of quieting fretting youngsters whose mothers leave them at home while they enjoy bridge was introduced by Mrs. Harry G. Zanier while attending an afternoon affair. The nurse phoned Mrs. Zanier that the baby had been crying for an hour, and that she could not quiet the child.

Mrs. Zanier gave a few hurried instructions to the nurse. A moment later the guests were surprised to hear Mrs. Zanier singing a soft lullaby into the transmitter.

The baby had been placed in a basket on a stand near the phone, the receiver to its ear, and it was lulled into dreamland by the soothing tones of the mother's voice. In five minutes she had resumed her place at the card table.

Mrs. Edward C. Dodd of Texas by developing a tract of what was supposed to be worthless land has made a fortune by raising Bermuda onions. Last year her crop sold for over \$50,000. She manages both her farm and her sales office.

## A Full Line of Palmer's Toilet Waters

"Palmer's" is such a favorite with our customers that we have laid in a full supply of the Palmer goods. These famous Toilet Waters are put up in the dark green bottles and come in 50c and \$1 sizes. Charming odors, at once delicate and persistent—ROSE LEAVES, APPLE LEAVES, GARLAND OF VIOLETS and the new SANDALWOOD DE ORIENTE. The 50c and \$1 sizes. Remember, you can get the PALMER GOODS at "Powers-Kelly."

Get It Where They've Got It.

## Powers-Kelly Drug Company

BOTH PHONES 148.

## Taft Promotes Political Friend

Left to right: Major B. B. Ray and Charley Taft, brother of President Taft.

Special to The Morning News.

Washington, Aug. 27.—Major Beecher B. Ray, the army paymaster accused of political activity for President Taft, today became a lieutenant colonel by recess appointment.

President Taft last week nominated Ray to be a lieutenant colonel, explaining no other course was open, under the law. Now that the senate has failed to act upon the nomination, Ray will hold the rank of lieutenant colonel with the pay and allowances of the office until next session, and after that indefinitely unless the senate should take adverse action when he is re-nominated.

Other army recess appointments effective today include Major General James B. Aleshire, quartermaster general and Major General W. W. Wetherpoon, who becomes assistant chief of staff.

Colonel Edward J. McClernaud, now at the Presidio, San Francisco, becomes brigadier general, but as he will retire in the course of a few months, he probably will not be given general command.

## Deaths and Burials

J. E. Hickman. A steamer and two trucks and several firemen from the central fire station were in the J. E. Hickman funeral procession from the Primm home on North Eleventh street to Oakwood cemetery Tuesday afternoon. Hickman was a city fireman at one time, and this was the department's honor to his services.

Rev. E. E. Ingram conducted the ceremony.

Child of Edwin J. Jurney.

Died, at 2:30 o'clock this morning, Jeannette, the infant girl of Mr. and Mrs. Edwin J. Jurney of 126 North Ninth street. Mr. and Mrs. Jurney have many friends throughout the city, who will sympathize deeply with them in their bereavement. The child was four days old.

Mrs. Suthren at Iredell.

Iredell, Tex., Aug. 26.—Mrs. Sallie Suthren, an aged woman, died here this morning from the effects of carbolic acid. She was about 65 years old and had been a sufferer for a number of years with a cancer on her head. She was a sister of J. C. and R. N. Phillips of this place and has a number of other relatives and friends in and around Iredell.

### CUBA PAYS AN AMERICAN.

By The Associated Press. Havana, Aug. 27.—The claim of Hugh Reilly, an American contractor, against the government of Cuba for \$557,000, representing the final settlement of the Cienfuegos waterworks contract, was paid this afternoon at a conference lasting four hours between Hugh S. Gibson, charge d'affaires of the American legation, and members of the Cuban cabinet.

### HUSBAND KILLS WIFE.

Columbus, Ga., Aug. 27.—Mrs. Andrew M. Roberts, who was shot through the lungs by her husband today, died this afternoon. Roberts, a well known salesman, shot himself in the head after fatally wounding his wife and is in a critical condition tonight.

### THE IMPRESSIONABLE MAN.

It was at an evening concert, says the New York American. The impressionable young man sat next to a stolid individual, who listened politely to all the youth said.

"Look!" cried the young man, clutching at his companion's arm; "look at the lady who is singing now. Isn't she lovely?"

"Very nice," agreed the stolid man. "Her teeth, now. Aren't they absolutely perfect?"

"You bet. It is highly gratifying to me to hear you say so."

"Is it? Maybe she's your daughter?"

"Nope."

"Do you happen to be her brother?"

"No relation. But I'm glad you like her teeth."

"They're perfect. But say, who are you, then?"

"I'm her dentist. I made her teeth. Maybe I can do the same for you."

### TAFT TO COUNTRY LIFE.

President, However, Has Long List Speaking Engagements.

Beverly, Mass., Aug. 27.—President Taft today got his first real taste of vacation since congress convened last December. He reached Beverly early, had breakfast with Mrs. Taft and his son, Charles, played golf on the Myopia links as soon as he could get there and tonight with Mrs. Taft took a long motor ride.

The vacation comes to a temporary end tomorrow, and for the next ten days Mr. Taft will be in Beverly only about half of his time. He will visit several cities to keep speaking engagements made long ago.

Tomorrow's trip takes the president to Columbus, Ohio, where that city is celebrating its centenary as a state capital.

Leaving Columbus early Friday morning, he is due in Boston Saturday.

The president's next trip begins September 3, and will take him to Washington. On the fourth he will open there the International Congress of Applied Chemistry. Leaving Washington on the morning of the 5th, he will travel to New York, board the Mayflower and steam to New London, Conn., where on the 6th, he will address the Atlantic Deeper Waterways Association. From New London, Mr. Taft probably will return to Beverly on the Mayflower. For two weeks after his return from New London the president expects to have few interruptions.

### CUBAN ATTACKS AMERICAN.

Charge D'Affaires in Havana Beaten by Newspaper Reporter.

By The Associated Press. Havana, Aug. 27.—Hughes Gibson, the charge d'affaires of the American legation at Havana, while entering a hotel here tonight, was assaulted by a Cuban newspaper reporter. Mr. Gibson was not seriously injured. His assailant was arrested and the Cuban secretary of state personally expressed his regret to the charge d'affaires at the occurrence.

### WASHINGTON DESERTED.

By The Associated Press.

Washington, Aug. 27.—"Gone to Virginia; return Dec. 2, 1912," read a note tacked to the office door of Representative Hay of Virginia, chairman of the house committee on military affairs. It expressed the situation at the capital today, for nearly all senators and representatives have gone to their home districts.

### CITIZENS LYNCH PRIEST.

By The Associated Press.

Lisbon, Aug. 27.—Dispatches received here today from Alcala Obispo tell of a priest being lynched. The priest, it is alleged, attempted to conduct a funeral without the traditional burial rites, and authorities and other citizens objected.

### WOMEN IN THE PARADE.

By The Associated Press.

Columbus, O., Aug. 27.—Approximately 6000 women paraded the streets here today advocating votes for women. Most of them trudged over the long line of march under the hot sun, while others in automobiles gaily decorated with emblems of equal suffrage, followed in a long procession.

### THE WORST CASE.

"The worst case of mixed metaphor known," said a teacher of English at the University of Pennsylvania, according to the Washington Star, "was the output of Sir Ellis Ashmead Bartlett, who belonged to a Philadelphia family. Sir Ellis wrote to the London Times:

"The concert of the powers in China is a mere delusive screen, agreeable in sound, very tickling to the ignorant ear, calculated to draw the cheers of the groundlings, but which really serves only as a blind to ourselves, as a cover for ministerial inaction, as a sounding board to tell our foes of our plans and as a lever whereby they are enabled to checkmate our policy."

"Imagine," ended the instructor—"imagine a screen doing all that!"

## A Perilous Belief

Every living person has the dream that some day he's going to be rich. He spends more time thinking about what he'll do with the money than how he'll get it. The poor houses are full of people who imagined that their ship was coming in and sat around waiting for it.

Most of us will never be worth any more than we save. The knowledge of this may hurt, but it's high time some of us found it out.

Your money will be absolutely safe in this bank. Come in and get acquainted with us and let us show you how we safeguard you against loss.

## ON NEW FIRE STATION

WILLIAM SMITH IS THE LOWEST OF BIDDERS.

Contractors Various Estimate the Cost of the Work Repairing for City.

The city commission yesterday opened bids for the construction of the new fire station in North Waco and for repairs on the East Waco station, the North Ninth street station, the Baylor station, Colonial Heights station and the Bell Hill station.

The bidding was lively on the new work, but all the bidders did not undertake to bid for the repair work. The plans are by Architect Brooks Pearson and the figures submitted for the new construction will include the cement walks about the building. The bids were opened and then referred to Commissioner Wright and Architect Pearson for a report and recommendation.

The bids were as follows:

### The New Station.

F. H. & Almsworth	\$5,284
B. E. Crawford	4,925
J. E. Johnson	6,174
J. F. Cason	6,229
W. A. Loving	6,008
Brame & Campbell	5,729
R. F. Bakery	5,212
E. Nelson	7,509
William Smith	5,859
D. R. Martin	6,417
Oscar Myre Building Co.	6,197
J. S. Harrison	6,485

### Repairs East Waco.

B. E. Crawford	\$1,660
J. E. Johnson	1,283
J. F. Cason	2,006
W. A. Loving	1,910
Brame & Campbell	1,420
Oscar Myre Building Co.	1,477

### North Ninth Street.

B. E. Crawford	\$1,600
J. E. Johnson	515
J. F. Cason	543
W. A. Loving	496
Brame & Campbell	527
Oscar Myre Building Co.	440

### Baylor Station.

B. E. Crawford	\$1,900
J. E. Johnson	1,190
J. F. Cason	1,050
W. A. Loving	1,067
Brame & Campbell	1,244
Oscar Myre Building Co.	1,020

### Colonial Heights Station.

B. E. Crawford	\$600
J. E. Johnson	595
J. F. Cason	660
W. A. Loving	610
Brame & Campbell	521
Oscar Myre Building Co.	554

### Bell Hill Station.

B. E. Crawford	\$600
J. E. Johnson	653
J. F. Cason	660
W. A. Loving	610
Brame & Campbell	525
Oscar Myre Building Co.	644

The lowest bidders are as follows:

On the new station, William Smith.

On East Waco repairs, J. E. Johnson.

On North Ninth street repairs, Oscar Myre Building Co.

On Baylor station repairs, B. E. Crawford.

On Colonial Heights station repairs, Brame & Campbell.

On Bell Hill station repairs, Brame & Campbell.

Miss Jennie H. Braddon is known as the "Cobbler Poetess" in Augusta, Me., because she works at the bench in a shoe factory and writes poetry.

DO NOT MAKE THE DOCTOR DO DOUBLE WORK.

When you take medicine carelessly you give the doctor double work to do. He not only has to overcome the results of the wrong medicine you may have taken, but he is compelled to correct the prime cause of the trouble. When you are sick, by all means consult your doctor first, then come to us. We will compound the medicine he orders in a correct manner. Take care of your health by having your physician prescribe for you—then let us fill your prescription.

For your health,

W. B. Morrison's

KATE FRIEND, Editor

### DESTRUCTION AT THE PARK. THIS IS UNPARDONABLE

Can any one conceive of a woman's taking a basket out to Cameron park, filling it with the beautiful ferns, pulled by the roots, and boarding the street car as complacently as if a weed had been uprooted in the back yard? This is what has actually occurred. This woman, when accosted by the caretaker, replied, "Is not this a free park?" She really meant no desecration. She simply did not understand park privileges. The desecration amounts to vandalism, and yet there seems not one soul in all Waco who does not appreciate Cameron park to the fullest. It is because we have an innovation. The first woman who saw a telephone did not know how to use it, but she learned. It is timely that some education along the privileges of a park be given. It is the mothers who should first learn in order to train the child to his pleasure and his respect due his park outing. To be sure Cameron park is free, every blade of grass belongs to the citizens of Waco. But, do we not guard our home property? Are we not up in arms when one steals a flower from our yard? Do we not reprimand when the act of vandalism is committed upon our premises? The same with the parks. Every single person should be a caretaker. Every single person should do a part towards preservation of the natural beauties which our parks have. Our privileges are rare. In most large recreation grounds there is the "Keep off the grass" sign everywhere. Not so with Cameron park. It is as free as the air. Strolling, driving, picnicking, every privilege is given, as it is designed that this shall be a recreation ground for our people rather than a beauty spot for the eye. Unless there is the general effort to preserve what we have in order that more can be given, we will have anything but the wished for results.

Therefore, this is the plea to every single mother in this city to admonish her children that not one twig, not one piece of litter, nothing shall be done to add to the unsightliness of the disorder of the park. Enjoy to the fullest, but feel the sense of personal possession and guard the beauties of Cameron park as we do our own home lawn. Cease the desecration as it has been indulged. If you see any one, adult or child, committing this crime to natural beauty, reprimand. If this does not seem to report. We have by nature the most beautiful park in all the world. We must unite to make it more so.

NOTES FROM THE WACOANS WHO HAVE TOURED EUROPE

Within the last 24 hours reports have come from almost all the Wacoans who have had the delightful experience of a summer abroad.

The telegram came on Monday morning that Mrs. Edgar Witt, with Miss Lucile Hill, had landed at Montreal and would arrive in Waco on Friday.

Mrs. Walker Moore was also in receipt of the news that Miss Azaleta Pickens was again in America, en route for Waco, which she would reach on Thursday.

On Tuesday a post card was received from Miss Josephine Rose, which bore the aroma of enthusiasm over her travel and first experience in Berlin.

After the year in this progressive and beautiful city, Miss Rose writes that three months of travel will be had over Europe.

Mrs. Roper and Miss Roper sent cards from Windsor Castle. They report a delightful visit in every respect. They are by this time in Paris.

Private letters from Mrs. Flora Cameron left her in Edinburgh after having done the Stratford country. She is visiting the old home of Mr. Cameron and some of his relatives. Meadames Cameron and Baird sailed on Tuesday. They land in New York next Tuesday.

A BRIDE ELECT IN TYLER HAS INTEREST HERE

As one of the autumn brides in Tyler there will be Miss Frances Bonner, the daughter of Mr. and Mrs. Charles Bonner. The groom to be is Mr. Connolly of Tyler. Miss Bonner has been a guest of Mrs. Waller Baker, and as such she attended the last season opening ball at the Philo club. She has traveled abroad and is a belle, not alone of Tyler, but in many towns where she has visited.

MRS. LEON MITTENTHAL HAS HOME WELCOME

One of the last social happenings among recent weddings is the arrival at home of Leon Mittenenthal and his bride from New York. They went at once to housekeeping in a North Fifth street cottage, where Mrs. Mittenenthal has received a most cordial welcome as a bride matron.

### LETTER FROM NEW YORK FULL OF PERSONAL MENTION

The late season finds many of the Wacoans who have had more quiet summer homes now gravitating towards New York City, there to enjoy the new plays, the new styles, and the general awakening of city life. This is always of vital interest. Indeed, the Parisians themselves admit that New York is fast gaining on them as a fashion center. As to the theatrical attractions, there is no comparison. The old country excels in music, but when it comes to the novelities and the really entertaining attractions, no stage can equal New York. The Hippodrome alone is an education as to the fads and the fashions in every phase of life. The old farmer was correct when he pronounced the Hippodrome the best home talent show he ever saw.

Most prominently mentioned among the Texas persons is the visit in New York of Mrs. Cone Johnson to Mrs. Hallie Dunklin. Many here claim Mrs. Johnson as their personal friend and her movements are always of interest. Mrs. Dunklin has for years been a resident of the city, yet her adherence to the old home is unbroken. Luncheons, auto trips to see the city sights, and other social attention has well filled the time of Mrs. Johnson. Mrs. Dunklin's special compliment to Mrs. Johnson is a luncheon of twenty plates today.

Among Mrs. Dunklin's guests is Mrs. Frank Gallagher, who now lives in New York, but is known to many who have met her during one of her visits to her sister, Mrs. Edward Rotan.

Miss Rena Mayden, who in years gone by was a visitor to Waco, is spending the summer with the W. J. Maydens in Connecticut.

Mrs. Harlow, who was Miss Ella Fulmore of Austin, and a frequent guest in Waco homes, the niece of Mrs. Johnson, has been a participant in the social attentions shown her aunt.

Burton S. Castles has just returned to New York from a trip to Kentucky. This probably means more thoroughbred horses, since Mr. Castles seems to be an enthusiastic horseman these days.

The last of the Dunklin boys is soon to be married. Will Dunklin married Miss Ethel Scruggs of Dallas, and Jack, a New York woman. Dick is still in the United States navy. His fiancée is a college woman and has a lineage of fine old New England families.

Mrs. Dunklin sends special greetings to the Morning News. Her interest is personal, since Mr. and Mrs. Hobby, Sr., were her old-time Texas friends. The grandfather was her godfather.

The entire city is filled with Wacoans, mention being made of five couples alone at the Waldorf Astoria.

MISS GOULD ENTERTAINED; REMAIN ANOTHER WEEK

While no affairs of formal nature are chronicled within the past few days, many more informal attentions have marked the visit of the Misses Gould to their sister, Mrs. William Early. There is not a day which does not bring some special pleasure. The homegoing occurs within another week.

MR. AND MRS. LUKE MOORE ARRIVE IN NEW YORK

Letters have arrived which bear the pleasurable information that Mr. and Mrs. Luke Moore are so far on their wedding journey as to have arrived in New York City. They were met by Mr. Moore's relatives and entertained handsomely for a few days. Mrs. Moore has traveled extensively, especially in the East, so they have already passed on further east and to new sights.

Society Notes.

Mrs. W. M. Foster has left Boulder and is now making the leisure trip home from Colorado. She is due about Monday. Miss Ethel Foster, who is with her, remains here but a few days before leaving to enter the New York school with Miss Frances Hays.

Miss Georgia Streeter is now visiting in Indianapolis, with a deferred date named for her arrival at home.

Mrs. Georgia Streeter will on Sunday enjoy the home visits of both her married daughters, Mrs. Maxfield from Grand Saline, and Mrs. Nixon from Bruceville.

Miss Margaret McClain of Fort Worth, who has been studying to enter the Young Woman's Christian association work, has returned from New York City to Texas. She will be the Thursday guest of Mrs. Sid Burrows on Austin Heights, en route to begin her work in Houston.

A letter which came on Tuesday

tells of the presence at the Waldorf Astoria of five Waco couples. These were Mr. and Mrs. Edward Marshall, Mr. and Mrs. James Riley, Mr. and Mrs. W. W. Cameron, Mr. and Mrs. Edward Bolton and Mr. and Mrs. Luke Moore. This means some exceedingly pleasant sightseeing.

Mrs. W. B. Hays has left the Chattanooga and is now in New York City to await the arrival of Mr. Hays. They remain to place Miss Frances in school, and to see Bowden, Jr., returned to Princeton before making their trip home.

Mr. and Mrs. J. W. Davis have written that they are now indulging the simple life in a delightful yet quiet resort near Richmond. They have toured the East and Canada and are now resting and waiting for the cool weather, which returns them home.

They say one of the fashion touches is to put a rough white lace collar on the grey wool sweater when about to appear on the golf links.

All visitors remark that one of the chief features in the pleasure of Cameron park is that the "Keep off the grass" sign is not there as a bugaboo to pleasure.

What is a toasty turkey dinner? One was given over in Dallas the other day.

It is noticed that all over the state the sorority girls are having special reunions. So the Pi Beta Phi here who have made emphasis upon the presence of the Misses Gould of Austin, is just in line with summer style.

How very much antediluvian to speak of a Dutch lunch. It must now be a "Deutsch Mahlzeit." All well and good, but who can twist the vocal cords into the proper pronunciation?

Viewpoint, the new journal of current events published in Dallas, indulges quite a clever scheme to catch the men. The editor writes an article concerning the measures which Mrs. Pennybacker will promote as president of the General Federation.

Viewpoint evidently considers that the women are already informed, so the article has the headline, "For the Men." Of course, the bait will catch and the men will, before they know it, be informed as to what club movements mean.

There is no getting around it now. Women who pretend to art culture must study up on Whistler. They must go further and admire Whistler and his "symphonies," be they black or green.

The next time you mix your mayonnaise remember that this relish is as old as the hills and is named for the man who invented the concoction. Just imagine a man's thinking of such delightful ingredients! A man is also responsible for the best mixing of the Welsh rarebit. After all, the mere man has his cause for being.

Do not some of the household hints smack of the imbecile's making? For instance, here is one: "To sew with a blunt or a bent needle does not make such neat work as the straight, sharp point." Who ever would have thought it?

Get the individual cup. Everybody is doing it. Tuck it away in the bag or the automobile pocket. Have it ready, now that the common cup is a thing of the past.

How many noted the advance bulletin that a cold wave would be here late this week? How good that does sound!

Society Personals.

Mrs. Charles Evans of North Thirtieth, with Mrs. Stanford of Lorena, and Miss Ross Miles are off for two weeks in Galveston.

Miss Lizzie Evans of Abilene Place, is at home from a prolonged visit to Oklahoma and New Mexico.

Misses Jane and Mary Cheek are at home from New Orleans.

Miss Sue Wheeler has joined a camping party which has pitched tent on the Colorado river.

Misses Mary and Helen Olenbush of North Fourteenth, are with friends in Colorado, Texas.

Miss Clara Evans is at home from Lorena.

Misses Jennie and Ellen Forsgard are in Galveston.

Miss Lella May Henry is now in Belton.

Mrs. Robert Coleman of Bell's Hill, is at home from a week's visit to Eddy.

Mr. and Mrs. C. N. Smith of Bell's Hill, who have been touring Colorado, are due at home on Friday.

Miss Parnell of Mart who was the guest of Miss Mildred Lastinger on North Twelfth, has returned home.

Miss Beatrice Beaumont of Washington street is at home from Caldwell.

MRS. BRANSON'S SCHOOL.

Mrs. Araminta Branson will open her school for small boys and girls Monday, September 2, at No. 512 North Twelfth street. 5-1

A PROMINENT ATTORNEY HERE

(Mineral Wells Index.)

Mr. Llewellyn Aubrey of Waco, Texas, a prominent attorney of that city, is spending about ten days in Mineral Wells and is staying at the Leslie Cottage.

This is Mr. Aubrey's first visit to Mineral Wells in twenty years when the city consisted of a few frame buildings and one or two driven wells.

Mr. Aubrey spent the night with the late Dr. C. B. Raines when here at that time. He is much pleased with the waters, which have proven very beneficial, and also with the large crowd of visitors who are very charming people.

The pavilions and general development of the city were a surprise to Mr. Aubrey, who had no idea that the city had grown as it has.

In his opinion a modern hotel run on the European plan would be a great success.

Among his old friends are Messrs. W. I. Smith, Judge F. S. Eberhart, Harry Blocker and Col. W. H. Boykin.

"Don't you think it is dreadful about all this graft business being discovered?" "Of course, I do. Why, with such a good thing couldn't they keep it quiet?"—Baltimore American.

## LEADER MANN'S VIEW

MINORITY LEADER SAYS NOTHING OF VALUE.

In His Opinion the Democratic House Lasted Longer and Did Less Than Any Other.

By The Associated Press

Washington, Aug. 27.—Inefficient, disorganized, unprogressive and inactive, was the description applied by Republican Leader James R. Mann, to the work of the democratic house of congress just adjourned. In a statement issued today reviewing the work of the house, Mr. Mann characterized some of the democratic majority's work as "stingy and silly," and other of its acts as "pure extravagance."

"The boasts about economy in the house of representatives went by the board," declared the minority leader. "The main work in the house of the democratic side has been a constant boasting of what they were going to do at the next session."

"I said last December that this session of congress would last longer and do less than any session in recent years. It has proved correct. This session of congress has enacted laws fewer in number and of less importance than any session for a long time. The laws we have passed are in the main of little importance and generally local in character. The Panama canal bill is one of greatest importance and in the main that was a bill prepared by me in a prior congress."

"The reformation of the rules has proven a farce. That the house has been inefficient is shown by the fact that over 200 senate bills which passed the senate remain unacted on in the house."

"It is a constant boast that the democrats at this session passed a law providing for publicity of campaign contributions. Such is not the fact. They only passed an amendment to the law which had previously been passed by a republican house and the principal part is one relating to primary campaign expenses and that was considered by the republicans of the house against the protest of the democratic side of the house. Somewhat similar is the bill relating to eight-hour labor which is only an amendment of a previous law and only made a slight change in the provisions of the original act."

"Practically all of the laws of any importance passed at this session were either bills prepared in a previous congress and left over for lack of time to consider or else they were bills prepared by officials in President Taft's administration."

Mr. Mann referred to the public health laws, the homestead laws, the bill creating a children's bureau and others as being within that classification.

The democrats were forced to agree to a parcels post which only a short time ago they insisted they would not agree to. They are entitled to no credit for it. Outside of money expended for the Panama canal, which cannot be considered as ordinary expenses, the appropriations for this session of congress exceed those for the last republican session. Not only is this so, but the democrats have appropriated money in many places where it was pure extravagance and where the money was not needed and have refused to make appropriation where they are absolutely essential for the conduct of good government."

TO SEE DYING MOTHER.

And Does Not Know His Wife Has Passed Away.

By The Associated Press.

Tulsa, Okla., Aug. 27.—Sidney Wakefield, prominent business man of Oklahoma and Texas, is hurrying to Chicago to the bedside of his dying mother, ignorant of the fact that his wife is dead in Beaumont, Texas.

A few hours after Mr. Wakefield left this city for Chicago, in response to a telegram urging him to hasten to his mother's death bed a message came from Beaumont announcing the death of his wife. Friends were unable to communicate with him en route and his Chicago address is unknown.

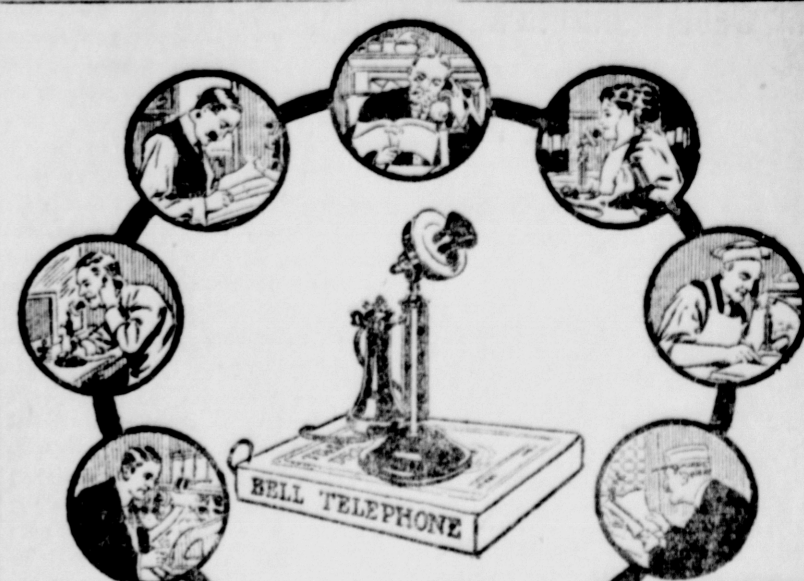

TO GET FASTER VESSEL.

By The Associated Press.

Galveston, Tex., Aug. 27.—After having completed 112 round trips between Galveston and Frontera, Mexico, the Swedish steamer Disa, Captain Ingvarsen, completed cargo today for Denmark and will not return. Captain Ingvarsen expects to return in about a year with a modern vessel, which will shorten the time between Galveston and Frontera from 70 to 45 hours.

FLIES ARE PEST TO STOCK.

Sherman, Tex., Aug. 27.—Nineteen head of horses and cattle in this city or vicinity have been killed while running away from flies in the past two days. The fly pest is the worst in the history of Grayson county. Thousands of dollars worth of chemical mixtures are being used on stock to protect it from the flies.

### PROSECUTORS IN SESSION.

Dexter Hamilton Comments On the Law's Delays.

By The Associated Press.

Mineral Wells, Tex., Aug. 27.—At this forenoon's session of the Association of County and District Attorneys, Dexter Hamilton read a paper on the "Difficulty of Securing Final Conviction in Murder Cases."

He said it rests with the heaviest men in the legal profession to do something. Agitation is growing against the courts to an alarming extent because of the annual destruction of human life, he said.

The present courts are looked on as propagators of murderers. The remedy needed is simplicity, rapidity and efficiency. Guilt or innocence should be what the courts look for.

He spoke against the delay caused by technicalities. He suggested simpler indictments, less legal verbiage, no renewal of cases of erroneous testimony except where damaging to the defendant. The charge of the court should be simple enough for the jury to understand. Present legal doubts, he said, induce turning murderers loose.

S. J. Osborne of Kaufman county, spoke on local option laws, pointing out that which is a misdemeanor in one county is a felony in another. He thought persons phoning liquor orders for others should come under \$2000 occupation tax.

The Rev. Mrs. Anna C. Tillinghast has resigned the pastorate of the Universalist church of Livermore Falls, Me., to take charge of the First Universalist church of Bangor, Mass. She is a graduate of Tufts College. She began her career as a public speaker at the age of 16, when she addressed the State Sunday School Association at Le Roy, N

## INVITATION TO MR. PASTORIZA.

The city commission of Waco does not commit its members to an endorsement of the Somers system of taxation in inviting Joseph J. PastORIZA, a member of the city commission of Houston, to come to Waco and make an address on the subject, but it is well that the invitation has been given, and it would be of benefit to all the taxpayers of the city if they could hear what he has to say on the subject. Mr. PastORIZA is a student of taxation. He is a capable business man, a prudent citizen, and possesses real property and personal worth. The discussion of the subject of taxation is not a new thing to him—he has been searching authorities on it for twenty years at least, and he is prepared to explain his views to an audience and to answer any questions that may be asked him. He is now trying his ideas of taxation on the people of Houston, and it is a fact that not all the people there are agreed with him. He went to Beaumont in response to just such an invitation as has been extended him here, and he submitted his views, and there were many there who did not agree with him. But he has a message to tell, and it is interesting as he tells it. He admits that he is ahead of the times among the people of this state on the proposition which he advocates, but he firmly believes that sooner or later a majority of the people will be won to his way of thinking. When he does come to Waco he ought to have such an audience that it will require the largest hall in the city to accommodate them, and there should be careful attention given to what he has to say. Whether we finally agree with him or not, the information on the subject will be of benefit, and it will give us all something to think of in the meantime.

## FIRE INSURANCE RATES.

Secretary Pollard of the state insurance board, has issued, in refutation of the "unwarranted assertion that fire insurance rates are confiscatory and unjustifiable in Texas," a statement in which he submits that seven Southern states pay higher rates than we do. Furthermore, he shows that the Texas rates were nine points lower than the average for thirteen Southern states for 1911, and six points lower than the average for the five-year period extending from 1907 to 1911. Of the thirteen states, his tabulations indicate that Texas has the highest loss ratio, with the single exception of Mississippi. The states used for purposes of comparison are Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Tennessee and Kentucky. "These states are selected as a group," says Mr. Pollard, "figures prove anything are more nearly analogous and since they constitute geographically what is known as the Southern tier of states." Let us admit that conditions in these states are analogous with conditions in Texas, although there is room for argument on that point. Will Mr. Pollard's figures prove anything then? Not unless he first proves that the rates in effect in the states in question are justified—something he does not undertake to do. "Texas is faring well," Mr. Pollard asserts, "and if the process of improvement suggested and urged by the state board from time to time is carried out by the various municipalities of this state, a further material reduction in rates will follow as naturally as night follows day."

We agree with Mr. Pollard that the improvements urged by the state insurance board should be made, and we are satisfied that individuals have it in their power to aid in the great work of conservation and ultimate lowering of rates if they will only correct the minor faults of construction in their buildings. Fire waste should be minimized. But that does not prove that "Texas is faring well," or that it needs a board that concerns itself so much with figuring out a case for the insurance companies.

Insurance rates should be fair and uniform—there should be no discrimination in their enforcement, no favoritism in their making. That was the theory on which the fire insurance board law was passed. But said law has been used to give rates a sudden elevation, to give the insurance companies a chance to recoup the losses they claim to have sustained through ten years of demoralization for which they were themselves responsible. If the law had been used solely to promote reduction of the fire risk and enforced with a view to penalizing those who neglected to observe the rules promulgated for that purpose, there would have been no room for complaint. What was done was to penalize everybody to start with and then promise to ease up on those who would take the prescribed precautions against preventable fires. And to make matters worse, those who took such precautions did not get the full benefit of them. When they claimed the reductions supposed to follow compliance with the suggestions of the companies, they were confronted with figures indicating that the insurance business showed a loss in this state, in the aggregate, and that it was impossible to make reduction at this time. In other words, those who went to the expense of making improvements to avoid fires were asked to make good for the losses occasioned by the neglect of others. Cities that readily complied with the board's requirements could not get their rates reduced because other cities that had been negligent in that respect had had big fires and heavy losses.

That's why the insurance board law is unpopular and why the impression is general that the insurance rates are in many instances unwarranted and confiscatory.

The announcement from Austin that it will require six million dollars a year to maintain the state government in all departments and institutions indicates that Texas is just now waking up to what should be done in the financial affairs of the commonwealth. There are states which spend nearly that on the educational institutions alone. The governor of Texas receives a salary smaller than a first-class traffic man for a railroad or the manager of a big business house, yet he is expected to entertain and to maintain a dignity commensurate with his office. The executive salary in the state, and they are low enough. Texas is a big state, and six million dollars a year is not quite \$2 per capita, figuring that we have more than three million souls.

The members of the Young Men's Business League have a right to be proud of the reception at all places along the route to Galveston. The people of Hubbard City were delighted with the return call which was made, and at Coolidge the population made every effort to extend the cordial hand of greeting. One of the most interesting features of the trade trip was the presentation at Coolidge to the members of the party of miniature bales of cotton, with a miniature cotton sack, etc. Coolidge is proud of her location in the cotton section of the state, and did everything possible to impress that fact favorably upon the visitors.

Side whiskers may be the fashionable craze in "dear old Lunnun," but will take a lot of swell pushing to put 'em on the American map again.

Well, after months of marching up and down the tariff bill, Taft and congress are right where they started.

Anyhow, Ohio's next governor is bound to be an editor, no matter which candidate wins.

There's only one infallible recipe for keeping a secret—don't tell it.

## CLIMATE AND COLOR OF CITIES.

It is estimated by meteorologists that the heat irradiated constantly in the atmosphere by the combustion of carbon modifies little by little the climate of cities and surrounding districts. It is said that 19,000,000 tons of carbon is the average yearly weight burned in cities the size of London and New York, says Harper's Weekly. It is also pointed out that the color of cities is changed according to the amount of carbon burned. Confirmation of these facts is offered in historical descriptions of cities. Paris being referred to by one historian of ancient times as a "city of red," while to this day certain Italian cities are described as "violet." Meteorologists prophesy that when our West is as thickly settled as Central Europe, our clear sweep of blue sky will be very materially modified.

## HOLDING HIM IN PLACE.

"What are your objections to me as a candidate?" asked the patriot. "You're an all-right candidate," replied Farmer Cornstossel. "I don't think you'd be near so entertaining as an office holder."—Philadelphia North American.

Perhaps the song, "Silvery Moon," was so named on account of the moon's quarters and halves.

## TUBERCULOSIS IN TEXAS.

Colquitt Names the Commission for This State.

By The Associated Press.  
Austin, Aug. 27.—Gov. Colquitt today appointed the Texas anti-tuberculosis commission in accordance with the plan outlined at the southwestern conference held at Waco, that governors from each of the southwestern states appoint a commission of ten members whose duty it shall be to urge upon congress the advisability of passing an act ceding or setting aside abandoned military posts to be used as tubercular sanitariums.

On the Texas commission are United States Senator Charles A. Culberson, Congressman Morris Sheppard, non-member of the United States senate; Congressman A. S. Burleson, Austin; Congressman John N. Garner, Uvalde; V. H. Thoburn, Comanche; T. J. Clegg, San Angelo; Mrs. T. H. McGrover, Austin; Mrs. Robert J. Newton, San Antonio; Dr. J. B. McKnight, Brady; M. H. McElhannon, Belton.

It was agreed that on the commission should be placed two United States senators, two members of congress, two business men, two physicians and two women. Governors of other southwestern states have already named their commissions.

## SUFFRAGETTE IS HONORED.

Mrs. O. H. P. Belmont Gives Ball For Miss Inez Milholland.

By The Associated Press.  
Newport, R. I., Aug. 27.—Miss Inez Milholland, the suffragette, was the guest of honor at a ball tonight, given by Mrs. O. H. P. Belmont at Eaton's Beach, the pavilion and other buildings on the water front being gorgeously decorated for the event. About 350 of the younger society set were present. In addition to the dancing the young people were entertained with a merry-go-round and other features. The favors for those who caught the brass ring on the merry-go-round were beach pails, shovels and other beach souvenirs.

A midnight supper, cooked on the beach, was served at small tables. One of the courses consisted of Newport sausages and mashed potatoes.

## COL. E. H. CUNNINGHAM.

Well Known Texas Planter Has Passed Away.

By The Associated Press.  
San Antonio, Tex., Aug. 27.—Col. Ed. H. Cunningham, 77 years old, who organized a company in Bexar county at the outbreak of the civil war, fought throughout the struggle, was made colonel of the fourth regiment and served as inspector general under General Hood and Stephen B. Lee, died at his home in this city this morning after an illness of two weeks. He was a native of Arkansas and came to Texas in 1856, returning to San Antonio at the close of the war. Colonel Cunningham began the development of Sugarland in 1882 and at the time of his death possessed large business interests there. He is survived by five children. He was at one time one of the most extensive planters in Texas.

## PARRY CAR THROWS WHEEL.

Drops Like a Winged Bird, But No One Hurt.

When the Parry car he was driving threw a wheel, E. Schwartzensky was surprised, but not more so than Will Clinton who was just about to pass him in a Ford, but no one was hurt and the car was not damaged. Schwartzensky was going north on Eighteenth street and Clinton south. They met at the park at the corner of Jefferson and were just about to pass, when Schwartzensky's car threw the left front wheel. The Parry car dropped like a winged bird, and scraped the pavement a bit before it stopped. Mr. Clinton was driving with his wife. He saw the loose wheel rolling toward him, and could not understand it. The two cars came to a standstill within three feet of each other. The accident happened at 7:45 o'clock last night.

## JOHN D'S LABOR TROUBLES.

By The Associated Press.  
New York, Aug. 27.—John D. Rockefeller, Jr., in a statement regarding labor troubles on his father's estate at Tarrytown made it known tonight that private detectives had been called to delve into the situation. A detective spent the entire afternoon on Mr. Rockefeller's place, conferring with Sheriff Doyle, who, with a large force of deputies, has been guarding Mr. Rockefeller's one thousand acre place for several weeks.

About 200 men are employed on the estate, nearly all foreigners. In his statement Mr. Rockefeller declared that the trouble was due to jealousy among certain employees and not by the discharge of any employee. Mr. Rockefeller discredited reports that it was a black-and-white warfare.

## CHINESE BRIGANDS OPERATING.

By The Associated Press.  
Hong Kong, China, Aug. 27.—Several hundred Chinese brigands today attacked a moving train at Fuyuen on the line from Canton to Hankow. The engineer, in spite of a hail of bullets, refused to put on the brakes. Several of the trainmen and passengers were wounded and the cars considerably damaged. When the train reached the market town of Ngwo it was found impossible to proceed further as the rails had been torn up. The town itself had been completely sacked by the brigands, many of whom were discharged soldiers. They are increasing in numbers daily. There is much alarm. Troops have been hurriedly dispatched to the scene from Canton.

## PROMPT ACTION WANTED.

New York, Aug. 27.—Without awaiting a decision of the arbitrators of the wage demand, the engineers of the railroads of the east and general managers representing railroads in the eastern territory met today and decided to confer tomorrow with representatives of the Brotherhood of Locomotive Firemen and Engineers, which has presented demands for increased compensation and readjustment of working conditions.

# PLUCKY IMMIGRANTS LAND

MOTHER AND CHILDREN UNDER-GO HARDSHIP TO GET HERE.

Walked 250 Miles to Catch Steamer. Search for Husband, Who Came Five Years Ago.

By The Associated Press.  
New York, Aug. 27.—"My, but that's a game bunch," was the comment of an immigration official as he passed Mrs. Mary Skivinek and her three children, Edna 9, Joseph 7, and Anne 5, through the barge office today. He and other officials had just heard a tale, the pathos of which moved them deeply.

Five years ago, the woman said, her husband, James, a farmer of Beraum, in Bohemia, determined to seek his fortune in the new world. By hard work and self-denial, they finally sent him on his way, and later heard from him in Colorado, where he said he had a small fruit farm. A year ago his letters ceased, and the mother decided to follow. By selling everything she owned, the mother got enough money to make the journey. To make doubly sure, she and the little ones trudged the 250 miles from Beraum to Bremen, carrying their little bundles of clothing. It cost less than 10c a day for food, and they slept in the fields. It was a month's journey to Bremen, and there they engaged passage in the steerage of the steamer Necker, and today the mother stood and told her story while the officials consulted to see if the family could land. Somehow it was decided they were not likely to become public charges and they were allowed to enter.

The mother has a few cents over the train fare to Denver, near where the father was last heard from.

## SHOOTING MATCH RESULTS.

By The Associated Press.  
Seargent, N. J., Aug. 27.—First prize in the championship regimental team match, consisting of gold medals for members and cash, went to the team of the First Infantry, National Guard of the District of Columbia, today. The competing teams fired ten shots at 200, 400 and 1000 yards. Second and third prizes were silver and bronze medals and cash, and went to the second and third teams in the following score list: First, First District of Columbia, 754; second, Second District of Columbia, 740; third, Fifth-fourth Iowa, 737; fourth, Fifty-third Iowa, 734; fifth, Second New Jersey, 729; sixth, Third New Jersey, 727; seventh, Second Alabama, 725; eighth, Seventy-first New York, 718; ninth, Fourth New Jersey, first team, 708; tenth, Tenth Pennsylvania, 707; eleventh, Fourth New Jersey, second team, 670, and Second Texas, 669.

The Remington expert match, an individual competition, shot late this afternoon, was won by Lieut. J. E. Parker of Massachusetts, with a perfect score of 75.

## DEMOCRAT NOT FOR T. R.

By The Associated Press.  
Boston, Aug. 27.—Geo. F. Williams, the democratic leader, on his return to Boston from New York today, denied that he had declared in favor of Theodore Roosevelt for president.

By The Associated Press.  
Oyster Bay, Aug. 27.—Col. Roosevelt declined to discuss his statement of last Sunday that Mr. Williams had promised him support. "I received word from ex-Senator Pettikrew of South Dakota," he said, "asking me to see Mr. Williams. I replied that I would be glad to see him. I, of course, assumed that the request came from Mr. Williams."

## BOOTH FUNERAL TOMORROW.

By The Associated Press.  
London, Aug. 27.—When the doors of Congress hall were closed tonight on the lying in state of the body of Gen. Wm. Booth, there still remained an enormous crowd outside. The memorial service will take place tomorrow evening at the Olympia and the funeral will occur on Thursday.

## CHAMPION RIFLEMAN.

By The Associated Press.  
Seargent N. J., Aug. 27.—Corporal C. M. Long of the Fifth regiment of Massachusetts is the champion military rifleman of the United States. He attained this honor today at the annual rifle tournament here after two days of shooting. He scored 235 points, against 231 for his nearest rival.

## BURY WILSON AT PARIS.

By The Associated Press.  
Paris, Tex., Aug. 27.—The body of Col. C. C. Wilson, who died a federal prisoner in Atlanta Sunday, will be buried at Paris, Texas, according to word received here today.

## BLEASE HAS MAJORITY.

By The Associated Press.  
Columbia, S. C., Aug. 28.—With approximately 15,000 votes to hear-of in various parts of the state, Gov. Blease's majority at 3:30 a. m. is 407 in a total vote of more than 119,500.

## SUFFRAGETTES WILL LAUGH AT THIS.

"I say, Jones," said his friend, according to the New York American, "do you know why you are like a donkey?" "Like a donkey?" echoed Jones, opening his eyes wide. "No, I don't." "I do." "Because your better half is stubbornness herself!" "That's not bad. Ha, ha! I'll give that to my wife when I get home." "Emly," he began, as he sat down to supper, "do you know why I am like a donkey?" He waited a moment, expecting, of course, that his wife would give it up; but she didn't. She looked at him with some pity in her eyes, and replied: "Why, I suppose, dear, because you were born so!"

## STARTLING DISCOVERIES.

Detective Says New Orleans to Be Another New York Affair.

By The Associated Press.  
New Orleans, Aug. 27.—The Orleans parish grand jury which met in special session today to investigate reports of alleged corruption in the local police department and other branches of the city administration, adjourned until Friday. D. D. Moore, Norman Walker and Wm. Steele of the editorial forces of the Times-Democrat, and Dan S. Lehon, southern superintendent of the Burns detective agency, appeared before the inquirers in response to subpoenas, but gave no formal testimony.

The Burns agency has promised startling revelations of municipal corruption as the result of an investigation which it has made for private citizens. A representative of the Burns agency is quoted as saying that a system of blackmail similar to that discovered in New York is levied upon gambling houses and disorderly resorts in New Orleans.

## WHITE SLAVERY CHARGED.

By The Associated Press.  
Mobile, Ala., Aug. 27.—Mrs. Mary A. Wanda, who is said to have an alias for each of several southern cities in which she has been engaged in the hair dressing and manuring business, was held today to the federal grand jury under a bond of \$250. She is charged with violation of the federal white slave laws. Her daughter whom she says is more than fourteen years of age, was released. The daughter had also been arrested under another section of the same law.

## TO HONOR LOYAL WOMEN.

By The Associated Press.  
Knoxville, Tenn., Aug. 27.—Mrs. Annie Ford Johnson, department president of the Tennessee Woman's Relief corps, will introduce before the national convention of that body at San Francisco, in September, a resolution petitioning the national board of finance to establish settlement work in the mountains of East Tennessee and to erect a monument to loyal women on the historic Chickamauga battlefield.

## \$60,000 STEAMER BURNS.

By The Associated Press.  
Santa Barbara, Cal., Aug. 27.—The old oil steamer Rosecrans, owned by the Associated Oil company and valued at \$60,000 was destroyed by fire above the water line and sank in deep water off her mooring berth late today. Her crew of forty-two men escaped by jumping into the sea and swimming ashore. The fire started from an explosion in the engine room.

## LINCOLN'S CROP OF HAY.

John H. Kimble, secretary of the Farmers' National congress, said the other day at Port Deposit: "The Fourth of July offers the farmer the prospect of unusually fine crops. Such crops as we may hope to have this year bring to mind an Abe Lincoln story. 'A farmer once told Lincoln a whopping big fib about his hay crops, Lincoln, smiling his melancholy smile, drawled: 'I've been cutting hay, too.' 'Good crop?' the farmer asked. 'Fine, very fine,' said Lincoln. 'How many tons?' 'Well, I don't just know how many tons,' said Lincoln, carelessly, 'but my men stacked all they could outdoors and then stored the rest in the barn.'—Denver Times.

## SWAT THE FLY.

For several months an expert accountant searched the books of a certain grain company in St. Paul, Minn., for an error of an even hundred dollars. They spent much more than \$100 in trying to trace the money. And then, after having gone over the books time and again, the accountant's pencil chanced to stop at an item of \$140. The pencil point rested on the figure 1 and when the figure suddenly broke in two and slid down the page! Upon examination it proved that the supposed figure 1 was a fly's leg. The fly had undoubtedly been crushed in the book when it was closed, and one of its legs had chanced to adhere to the page in such a way as to make the entry of \$140 appear to be exactly \$100 greater.—Hay, Flour and Feed Journal.

## LOVE.

There was a sound of revelry by night. The Bloggeses were giving a party. Mr. Bloggs had just obliged with the touching ballad, "Tis Love That Makes the World Go Round," and Master Bloggs seized the opportunity to sneak behind a screen with father's pipe. Shortly afterward it was observed that Willie wasn't well. His face was pallid, and his eyes stood out. Cried Mrs. Bloggs: "Goodness, child, what's the matter? I do believe you have been smoking. Willie feels shok his head. 'Tain't that, ma," he replied, untruthfully. "If it's true what father's been singing about, I—I must—be—in—love!"—London Answers.

Miss Coffin, the adopted daughter of Dr. L. S. Coffin, is to be at the head of the Women's School of Agriculture which has just been established at Los Angeles, Cal. The money to establish the school was given by Dr. Coffin, who is a resident of Iowa and believes in the aptitude of women for farm management.

TAFF SHUT FORT WORTH OUT,  
LETTING THEM DOWN WITH  
FOUR HITS.

## UMPIRE DUSTS CRICHLAW

This Move Proved Winner for Navi-  
gators—Houston and San An-  
tonio Held Places.

By The Associated Press.

Fort Worth, Aug. 27.—Umpire Newhouse put Crichtlow out of the game today in the seventh, and in the ninth Stewart, Crichtlow's successor in center field, banged out a triple and scored Waco's only run when Taff made his second hit of the game. Fort Worth failed to score, touching Taff for only four hits. Maples started the game for Fort Worth, but was pulled in the seventh in order that Howard might bat in his place. The run was scored off Brown.

Houston 12, Beaumont 0.

By The Associated Press.

Houston, Aug. 27.—In a slow and uninteresting game, Houston defeated Beaumont this afternoon by a score of 12 to 0. The locals clinched the victory in the second, making seven runs on seven hits for eleven bases, a walk, a sacrifice and an error. After that Peaster was almost unhitatable until the seventh, when the Buffaloes scored five runs. Watson pitched steadily throughout. Score:

San Antonio 3, Galveston 1.

By The Associated Press.

Galveston, Aug. 27.—Morton was rapped freely this afternoon and San Antonio won easily from the Pirates by a score of 3 to 1. Slow fielding on both sides was the order of the afternoon, and scratch hits were in abundance. Clark's home run in the sixth with Metz on base was the deciding blow of the game. Score:

Struck out by Morton 6, by Ayres 5. Hit by pitched ball, by Morton (Seitz). Left on bases, Galveston 3, San Antonio 7. Time of game, 1:42. Umpire, Howell.

Dallas 8, Austin 5.

By The Associated Press.

Dallas, Aug. 27.—Dallas won a loosely played game from Austin today, 8 to 5. The Dallas club used three pitchers and the Austin club two. Hill was out of today's game and the change in lineup necessitated sending Brownlow in to play shortstop. The change apparently weakened the infield's defense and Brownlow's three errors were expensive to his team. Score:

## FURTHER COTTON BREAK

CROP ADVICES BEARISH, WITH CONTINUED GOOD WEATHER.

October Drops Into New Low Ground Touching 10.78c—December Sinks to 10.88c.

By The Associated Press.

New York, Aug. 27.—There was a further sharp break in the cotton market today, and while covering or trade buying was active enough to cause a rally of several points and give the market a steady tone in the late trading, last prices were from 9 to 13 points net lower.

The opening was easy at a decline of 5 to 12 points, and active months sold 12 to 16 points net lower during the first few minutes under over-night selling orders and a renewal of local bear pressure, encouraged by relative heavy cables, bearish crop advices and reports of continued good weather over the greater part of the belt. Covering checked the decline during the morning and rallies of 5 or 6 points occurred, but buyers seemed able to get all the cotton they wanted on these moderate bulges, and after the publication of the weekly weather report the market again became weak and unsettled. Reports of an easier southern spot basis and the failure of trade demand to develop upon any important scale during the morning no doubt contributed to the renewal of bear pressure.

At any rate, prices sold into new low ground, with October touching 10.78c and December 10.88c, or about 20 to 30 points net lower. Realizing by recent sellers became active around this level, while there may also have been some improvement in the demand from trade sources, and closing prices were 10 to 12 points up from the low. The rally during the afternoon had the encouragement of private reports from Texas, indicating dry, hot weather in the droughty sections of the port was considered favorable and southern spot markets were generally lower.

Receipts 32,542 bales, against 24,530 last week and 27,077 last year. Today's receipts at New Orleans 446, against 749 last year, and at Houston 14,294, against 16,227 last year.

## NEW ORLEANS COTTON.

By The Associated Press.

New Orleans, Aug. 27.—Cotton futures opened steady at a decline of 5 to 6 points on poor cables and encouraging crop and weather accounts from the cotton belt. The weather map was cloudy and wet except in the extreme eastern and western portions of the cotton region, and those bearishly inclined based fresh sales on it. Little or no support was offered in the early trading, and even the demand for covers from shorts were not large. At the end of the first half hour prices were 7 to 8 points down. Market weakness was displayed around the middle of the morning and the general opinion was that the pressure came from hedge selling. There appeared to be little desire among speculators to sell short, except in a scalping way. Scalpers did follow the decline for a few points, but were quick to take profits, and their purchases of covers steadied the market at the decline. The rumor that hedge selling was going on served to call attention to receipts at Texas points, which were larger on the same day last year. At noon prices were 15 to 16 points under yesterday's close.

In the afternoon selling pressure continued for some time. At the lowest prices were 17 to 18 points down. Shorts took profits heavily and fresh long buying apparently for a turn struck the market and prices quickly stiffened. At 2 o'clock the trading months were only 3 points under yesterday's final figures. The close was steady at a net decline of 8 to 9 points.

## Range of Futures.

## WHEAT MARKET RALLIES

BELIEF IS WHEAT EXPORTS WILL BREAK ALL RECORDS.

Corn Maintains Firm Tone—Foreign Demand for New Crop—Oats Rule Firm.

By The Associated Press.

Chicago, Aug. 27.—Belief that United States wheat exports this season would be larger than ever before helped the market today to rally. The close was strong, 1/2c above last night. Latest trading left corn at an advance of 1/2c to 1 1/2c, oats up 1/2c to 1 1/2c, and provisions down 5 to 12 1/2c.

Opinion in regard to probable record-breaking exports of wheat was strengthened by a leading bureau report that on account of wet weather there had been serious impairment in the quality of European bread material. A group of large houses here leaned on the buying side of wheat in stalkward fashion. Discovery of this fact checked early selling, due to failure of predicted firms in Canada.

Corn had a firm tone throughout. Exhausted stocks furnished the incentive. There were signs, too, of some foreign demand for new corn. Cash grades were in active demand.

Inability of interior shippers to get enough cash made oats firm, despite an early dip on account of the big arrivals here.

Hard spots in the provision market brought profit taking on the part of stockyards long. In the end quotations were off all around—pork and lard 7 1/2c to 12 1/2c and ribs 5 to 10c.

The close follows:

Wheat—Sept. 94 1/2c, Dec. 94 1/2c, May 95c.  
Corn—Sept. 73 1/2c, Dec. 55 1/2c, May 53 1/2c.  
Oats—Sept. 32 1/2c, Dec. 33 1/2c, May 34 1/2c.  
Pork—Sept. \$17.80, Oct. \$17.92 1/2, Jan. \$19.07 1/2.  
Lard—Sept. \$10.92 1/2, Oct. \$11.00 1/2, Dec. \$10.77 1/2, Jan. \$10.72 1/2.  
Ribs—Sept. \$10.87 1/2, Oct. \$10.92 1/2, Jan. \$10.15.

## Chicago Cash Grain.

Wheat—No. 2 red \$1.05 1/2, No. 3 hard 95 1/2c, No. 1 northern 96 1/2c, No. 2 northern 94 1/2c, No. 2 spring 94 1/2c, velvet chaff 85 1/2c, durum 90 1/2c. Corn—No. 2 87 1/2c, No. 2 white 81 1/2c, No. 2 yellow 80 1/2c. Oats—No. 2 32 1/2c, No. 2 white 32 1/2c.

## DRY GOODS.

By The Associated Press.

New York, Aug. 27.—Numerous small orders frequently repeated were received on all kinds of bleached and colored cotton goods. Napped goods were called for quite freely, while the best grades of dress gingham were in fairly good demand. There were no further downward revisions on print cloths. The jobbers continued to do a good house trade. Some numbers of yards were dropped 1/2 a pound. Men's wear wools and worsteds were in good demand for fall and spring season.

closed quiet. Middling uplands 11.30c, middling gulf 11.55c. Sales 100 bales.

## New Orleans.

By The Associated Press.

New Orleans, Aug. 27.—Spot cotton quiet, 1/2c off. Sales on the spot 15, to arrive 45. Low ordinary 7-15-16c, ordinary 8-15-16c, good ordinary 10-15-16c, strict good ordinary 10-15-16c, low middling 10-15-16c, strict low middling 11-15-16c, good middling 12-15-16c, strict good middling 12-15-16c, middling fair 12-15-16c, middling fair to fair 12-15-16c, fair 13-15-16c. Receipts 446. Stocks 22,876.

## Liverpool.

By The Associated Press.

Liverpool, Aug. 27.—Spot cotton closed quiet, 13 points down. American middling fair 7.25d, good middling 6.85d, middling 6.45d, low middling 6.21d, good ordinary 5.73d, ordinary 5.25d. Sales of the day 6000 bales, of which 500 were for speculation and export, and included 5600 American. Receipts 4900 bales, no American.

## COTTON SEED PRODUCTS.

By The Associated Press.

New York, Aug. 27.—Cotton seed oil was quiet under liquidation resulting from the weakness in lard and cotton. Earlier crude offerings from Texas and poor outside demand. Near months closed 11 to 15 points lower and late positions 2 to 7 points lower. Aug. 6.32 1/2c, Sept. 6.30 1/2c, Oct. 6.39 1/2c, Nov. 6.13 1/2c, Dec. 6.08 1/2c, Jan. 5.97 1/2c, prime crude nominal, prime summer yellow 6.35 1/2c, prime winter yellow 6.40 1/2c, prime summer white 6.40 1/2c.

## Memphis.

By The Associated Press.

Memphis, Aug. 27.—Cotton seed oil, prime basis, 5.34 1/2c. Meal 26.50 1/2c. Linters 2 1/2c.

## LOCAL COTTON MARKET.

Since Break in Prices Farmers Are Not Turning Loose.

Since the publication in The Morning News yesterday that Waco cotton brokers are warning farmers against the speculation in steamship spaces, the farmers are realizing the situation and many of them are holding. As long as the prices continued above 11 cents, the cotton was turned loose as fast as it was ginned, but when the 11-cent level was broken through the rapid selling halted. Cotton sold on the streets here yesterday at 11.89 to 11.85, which is more than \$1 a bale under the price at which the product sold last Saturday.

Cotton receipts at the two Waco yards yesterday aggregated 150 bales, bringing the total up to 2360.

## STOCKS ASSUME NEW LIFE

RECESS OF CONGRESS IS FACTOR IN RELIEVING PRESSURE.

London High Range for United States Securities Is Favorable Influence in All Lines.

By The Associated Press.

New York, Aug. 27.—The congressional recess, further confirmation from high official and unofficial quarters of the brilliant crop outlook, and unabated demand for steel, iron and copper were the chief factors which imparted general strength to today's stock market. London's high range for our securities was also a favorable influence, albeit the better inquiry for Americans in that center probably had its origin at this end. The opening prices showed gains in all the standard issues. Harriman and Hill stocks, as well as the entire granger group, manifested an upward tendency. Later there came a demand for various miners' specialties, including Colorado Fuel common and preferred, with a 20 point gain for the latter; American Beet Sugar, Pittsburgh Coal, American Can, Mexican Petroleum and the local traction. Each recurrent buying wave was followed by idleness, in which the market seemed to undergo a process of assimilation, but the general rise was well maintained, except in certain issues, where evidences of realizing for profits was not lacking. On the whole, however, there was less a feature than in any recent session.

The local bond market was irregular. Total sales, par value, \$1,500,000. United States registered 25 advanced on call.

## LIVESTOCK.

By The Associated Press.

Fort Worth, Aug. 27.—Cattle receipts 3000; market steady; tops on steers \$4.65. Calf receipts 1000; market strong to 25c higher; tops \$7.00. Hog receipts 75; market nominal. Sheep receipts 800; market strong; lambs \$6.75.

## CHINA ADOPTS THE TYPEWRITER

"There has been," reports Consul General Anderson from Hongkong, "a steady increase in the use of typewriters among progressive Chinese business houses for some time, and the movement toward modern things generally following the revolution is stimulating the adoption of all such modern business conveniences. Foreign firms in the open ports are also increasing the use of typewriters. Until recently many of them still correspond in handwriting and it has been difficult to break some of the old and conservative firms away from such methods. However, about 500 typewriters are now in use among such firms in Hongkong as present, and at least 450 of these machines are American. Purely Chinese firms are now using perhaps 50 machines and more are being sold daily. Business college instruction in various Hongkong schools is producing a large and increasing force of stenographers among young Chinese and Eurasian people."

Miss Margaret Chung, a young Chinese woman, is at the head of the movement which proposes to form an organization of American women for the purpose of assisting and encouraging the women of China in making the best use of their newly acquired right to the ballot. She is the secretary of the Women's Auxiliary of the Chinese-American League of Justice at Los Angeles, Cal., and a member of the Chinese Protective Association and of the Chinese Women's Reform Club.

## WHOLESALE TRADE

CAR SHORTAGE WILL AFFECT SHIPMENTS BY JOBBERS.

Carbolic Acid and White Arsenic Are Higher in Price—Many Out-of-Town Merchants.

Indications that a car shortage will greatly affect the handling of wholesale supplies from the north and east, are evident, and local wholesale merchants are already experiencing some difficulty in securing shipments from the factories. This condition of affairs it is feared will grow worse instead of better during the next few months. In fact it is said many mills have orders for the year 1913 already placed, besides 1912 orders which they are unable to fill, and ship out. This increased business, at this time, will it is feared, cause a serious shortage of cars.

Yesterday one wholesale house, which has orders with a St. Louis firm for thirty-five cars of goods, reported that because of shortage of cars, only four car loads could be shipped daily out of the St. Louis market.

Local wholesale business continues good.

Hog products declined five points Tuesday, after the advance of Monday, and closed Tuesday night at the same figures quoted Saturday of last week.

Carbolic Acid Advances.

Carbolic acid showed a firm advance Tuesday over last week's market. The advance was three cents per pound at New York. Contracts for next year are already being made at an advance over the price of the article for any time in two years.

An advance in all essential oil products is also noted; especially is this advance shown in oil of pepper, oil of lemon, oil of citronella and oil of cloves.

An advance on sponges, predicted Monday, came into effect Tuesday. The advance ranges from 10 to 20 per cent according to various grades.

Scarcity of White Arsenic.

Scarcity of white arsenic has also caused an advance in the price of this article. White arsenic is at present almost unobtainable because of the large demand for this article used in the manufacture of Paris green and other insect destroying poisons. This great demand has caused the price of white arsenic to advance from 2 cents six months ago to 4 1/2 cents at the present.

Because of increased business the Tom Padgett company has also placed another salesman on the road. J. M. Zike began his route Tuesday and was assigned Oklahoma territory.

Many out of town merchants visited the local wholesale district Tuesday purchasing goods for their establishments. Among those here were:

Some of the Visitors.  
At the Herrick Hardware Co.—L. V. Reeder of Italy, B. H. Marks of Groesbeck, John Bryan of Hubbard City, H. Norrid, manager of the Mt. Calm Mercantile Co. of Mt. Calm, and J. L. Litteral of Blevins.

At McLendon Hardware Co.—J. H. Kirby of Battle, J. T. Bryan of the firm of Weatherly & Bryan, hardware merchants, Hubbard City; H. E. Nash, of the firm of Nash & Westbrook of Mart; J. C. Searazin of Lott, George Loehman of Rosebud, J. L. Litteral of Blevins, G. B. Thompson of Malakoff, L. V. Reeder of Italy, W. L. Hall of the firm of Hall & Toler of Reisel, T. D. Reed, an ice man of Crawford, B. C. Wallace of Coolidge, member of the firm of Limestone Hardware Co., and C. W. Myer, prominent merchant of Rosebud.

At Behrens Drug Co.—J. A. Walker of El Paso, Texas.

At the Nash & Westbrook Co.—Mr. Nash of Weatherly & Bryan of Hubbard City; Mr. Hall of Hall & Toler of Reisel.

At Rotan Grocery Co.—L. L. Cordell of Crawford.

At Waco Drug Co.—R. E. Sparkman of Irene.

At Sanger Bros., Wholesale Dry Goods Co.—G. O. Bronstad, Cranfills Gap, Texas; John E. Swenson, Clifton, Texas; C. W. Meyers, Rosebud, Texas; Mrs. S. W. Ellis, buying for S. W. Ellis, McGregor, Texas; Miss Baumer, buying for Ell Bailey, Holland, Texas; W. R. Looney, Branchville, Texas; J. L. Litteral, Blevins, Texas; Miss Moody, buying for T. N. Moody, Prairie Hill, Texas.

## GOOD DEAL LEFT FOR SCIENCE

To sum up, the significance of the attainment of the poles is:

1. The final conquest by man of the planet on which he lives.  
2. The opening up of the last large unknown area for both observation and investigation.  
3. The demonstration that against sound physique and experience, no earthly obstacle is proof.

4. That now it is the duty of the United States, as a matter of national pride and morals, to make up for its failure hitherto to join the other nations in attacking the antarctic problem.

There is no way in which this desirable result can be secured by a single stroke, and with greater credit and certainty of immediate and important results other than by occupying the South Pole during a year as a station for the purpose of continuous magnetic, meteorological, astronomical and other scientific observations by a small party of experts.—Popular Mechanics.

The Texas Commercial Secretaries and Business Men's association has inaugurated a state-wide advertising campaign, and through the Texas press will offer the merchants suggestions, along the line of publicity work. The association has the cooperation of leading advertisers in Texas and the movement has met with the approval of a large majority of the Texas editors.

## IN THE LOCAL MARKET

SUFFICIENT APPLES TO SUPPLY THE DEMAND.

Lemons Show Another Advance—Second Rise in Seven Days—Few Elbertas in Storage.

For the first time during the present season, there are sufficient apples of almost all kinds to supply the local market. For the past two days shipments of this fruit from Colorado, California, New Mexico have been reaching Waco. Also shipments from Idaho are expected to arrive today. The apple crop in all apple producing states is beginning to move better. Prices, it is hoped, will likewise be reduced, quotations for standard varieties of apples being \$1.75 per box Tuesday.

Another advance in the price of lemons occurred in the local wholesale market Tuesday. This time the price jumped from \$4.75 to \$5 per box for choice and from \$5.25 to \$5.50 per box for fancy lemons. This is the second advance within the past seven days on this article.

Few Elberta peaches are in storage, and are being sold by the four basket crate.

Prices on chickens, butter and eggs remain unchanged.

Local wholesale prices quoted Tuesday follow:

Apples.  
Standard summer varieties.....\$1.75  
Summer varieties only.....2.00

# REGULATION ONLY SOLUTION TO STATE'S LIQUOR PROBLEM

**Many Prominent Prohibitionists Favor That Method of Procedure—Personal Liberty Rights Invalidated By Prohibition.**

Proper regulation of the liquor business as guaranteed by the plank put in the state democratic platform at San Antonio will do more to eliminate the differences existing between Texas as democrats at present, than the complete elimination of the saloons as advocated by the prohibitionists. Prohibition is a failure wherever it has been tried. Oklahoma is an example. Maine is another example. Georgia is another, also Tennessee. It is not necessary to go outside of Texas to find examples of prohibition failing to prohibit. It fails in the smaller towns and cities of the state. There is no city of Waco's size in the state under prohibition laws.

Regulation and moderation in all things is the modern trend and who can successfully dispute that sure progress a little at a time, is not better than an attempt to change the existing order of affairs at one fell swoop when it is known that the opposition that will be met comes not from the best class of citizens. Regulation, peace, progress, is the motto that has been adopted by the progressive democrats of Texas and with Governor Coquitt himself as a powerful exponent of this slogan, who can successfully deny that Texas will not make a long step forward.

Under old conditions, saloons in Texas were open twenty-four hours a day, seven days in the week. That condition of affairs existed at one time in Waco. Progress has been made however, and at the present time, stringent regulations govern the liquor business. The most enthusiastic anti does not dispute the power that attempts to take away his constitutional rights. McLennan county officers, if prohibition goes into effect, will endeavor to enforce the laws. Bootleggers will meet strenuous opposition but even the arrest and conviction of all that class of undesirable citizens will not do away with the liquor business, not as long as the trains run and the express companies continue to operate.

Under the platform adopted at the state democratic convention at San Antonio, and which is guaranteed passage at the next session of the legislature, saloons must close at 9:30 o'clock each night, and remain closed until six o'clock the next morning. This cuts three and one-half hours from the open hour business of the

saloons and will do much toward removing the opposition that has existed between the anti and pro of the state. Judge Lud Williams, in his speech at the opening rally of the anti predicted that nine-tenths of the differences between the anti and the pro would be eliminated by the 9:30 closing law. Judge Williams gave a detailed account of the adoption and the opposition to the liquor plank as manifested at the San Antonio convention. At the close of the convention, however, many prominent prohibitionists, Cone Johnson included, gave the plank their influence and help to secure its adoption. Cone Johnson desiring to give the new law as it will be passed an opportunity of a trial is not now taking an active interest in any prohibition fight. He desires to wait and allow the new law to demonstrate its worth.

Many prominent business men who are also prominent prohibitionists also oppose the local option election called for September 7 on the score that it is untimely in the face of fall business prospects; that it has already and will continue to disturb business and that a heated campaign such as may develop will do much to injure the usefulness of the Cotton Palace in November.

Laboring men and the tradesmen also oppose the local option election at this time because it is holding up their work and interfering with their business. Several contractors have felt its effects and are now idling pending the result of the election. Should prohibition carry, they see no prospect of the resumption of business on a large scale and face the prospect of having their present contracts declared invalidated on purely technical points.

Another reason why business men, laboring men and tradesmen oppose the adoption of local option is the fact that personal rights guaranteed to them under the constitution will be taken away. Personal liberty is a salient feature all desire to enjoy and it has been the violation of that right that has ignited all trouble from the beginning of time and will continue to do so until the millennium. (Adv.)

## REAL ESTATE IS HIT BY ELECTION

**INACTIVITY PREVAILS OVER ENTIRE CITY, SAYS VETERAN DEALER.**

## BELIEVES IN REGULATION

**Prefers Open Saloon to Blind Tigers and Bootleggers That Follow in Wake.**

Discussing the local option election, T. J. Primm, a prominent Waco citizen, an expert on real estate values and cause affecting depreciation says: "I think it was very inopportune at this time to call a local option election, as everything in Waco seemed to be looking up and prospects were very flattering for the city. People, as a whole, have been almost a unit on every proposition that has arisen for the benefit of the city. I have been in the real estate business now about fourteen years, during which time there has been two prohibition campaigns, and each time the real estate business stopped as if it was a clock upon the wall, and nothing has been done. "I am convinced that regulation of the liquor traffic as now contemplated will be more effective in destroying the evils of the saloon than prohibition. I prefer regulation of the open saloon, to blind tigers and bootleggers that always follow prohibition." (Adv.)

## PROHIBITION AGAIN FAILS

**JOHNSON COUNTY CITIZEN SAYS PEOPLE GRADUALLY MOVING AWAY.**

**Whiskey and Beer Can Be Bought in Cleburne, He Says—Much Drunkenness.**

H. K. Hughes of Rio Vista, Johnson county, was a visitor at Anti headquarters on Franklin street yesterday and in an interview said:

"I have lived in Johnson county for thirty-nine years and prohibition has been in operation for some time and it works very badly. There is a great deal of liquor brought into the county and thereby much drunkenness. Since prohibition went into effect many of our people have moved to Fort Worth and elsewhere. Since prohibition went into effect into our county, the Santa Fe shops have been moved from Temple to Cleburne, and this brought many people to Cleburne, but not as many as were lost by putting prohibition on the county.

"Whiskey and beer can be bought in Cleburne but the sale is on the sly and the men who sell it pay no taxes, but they all find good profit in prohibition. My home is at Rio Vista. I never drink whiskey and it has been nineteen years since I drank any. I hope that the people of McLennan county will not be enticed into fastening that fraud prohibition on their county. It will only do harm. (Adv.)

## NEW FEATURES IN LIVE STOCK

EFFORT MADE TO GET BRAHMA  
CATTLE AND KARAKUL  
SHEEP.

## EAST TEXAS INTERESTED

Palestine Engages Space for First  
Time for Farm Exhibit—Stam-  
ford Coming Strong.

For the purpose of making more varied and complete the livestock department of the Cotton Palace, the officials are making a pull to add several herds in addition to the Hereford show bunches of Lee Bros. of San Angelo, Boone-Scott Bros. of Coleman and other Hereford breeders, and Dr. Clifton's famous Red Polls. Efforts are being made to have Gerard O. Cresswell of Oplin bring his Aberdeen-Angus prize winners here instead of shipping them to Shreveport. A letter from Mr. Cresswell indicates that he will likely show in Waco.

A particularly unique feature which the officials here to give is the Brahman cattle of G. P. Borden of Pierce, Texas. Mr. Borden has some pure breeds and some mixed. Secretary Mayfield has interested Mr. Borden in bringing a bunch and expects to successfully conclude negotiations. The Brahman are the sacred cattle of India, and were introduced into Texas only a few years ago. They were first brought to South Texas, and only last year were they placed upon the ranges of Western Texas. The cattle have a hump on their backs and otherwise are interesting in appearance. They are exceedingly thrifty, and are immune from the Texas fever tick.

Still another attractive feature of the livestock department is expected to be an exhibit of Karakul sheep. Arrangements are being made with Alex Albright of Dundee, Archer county, to bring a bunch of this breed. The Karakul is the sacred sheep of India, and is practically new to this country. Dr. Young introduced them about five years ago. When he attempted to move the sacred wools from their native land the government of India objected, and the importer was compelled to invoke the aid of the United States government. The wool of the Karakul is long and silky and is very valuable, the skin of a lamb being especially high. By crossing these sheep with the Shropshire, it is claimed that a superior quality of wool can be produced.

The Cotton Palace will draw exhibits from East Texas this year for the first time. Palestine has just reserved space for an agricultural exhibit, and other towns in that part of the state may come in a little later.

The western part of the state will be creditably represented in an agricultural way, as well as by livestock. Stamford is the latest to engage space. A letter was received from there this week, asking for the reservation.

## BANGER SILK AND DRESS GOODS BUYER BACK.

Hudman Taylor, buyer and manager of the Sanger silk and wool dress goods departments, returned yesterday from the various markets where he has been for considerable time, studying and buying merchandise for these departments of the Sanger store. Mr. Taylor stated yesterday morning that the silk department would not only contain all of the staple as well as the latest novelties produced by the American silk manufacturers, but that his purchases included extensive lines of imported silks of a rich and rare nature. The Sanger silk department has always maintained a high standard of quality and is recognized by fashionable women as one of the most complete silk departments to be found. In connection with his purchases for the wool dress goods department, Mr. Taylor made the statement that notwithstanding the fact that this department of the Sanger store had in seasons past carried the most complete and comprehensive line of woolen fabrics procurable, that the variety and assortments purchased for the fall season of 1912 would eclipse in every way all previous achievements along this line.

## FALLS UNDER A TRAIN.

News reached the city yesterday of a tragedy at Hubbard City, resulting in the death of Andy Fincher, aged 29, a farmer, one and a half miles from Hubbard and 30 miles from Waco. Fincher spent Saturday in Waco looking for cotton pickers, and was seen to leave the train at his home town at 9:20 Saturday night. A few moments later when the train started a cry of pain was heard from under the car wheels, and the next instant Fincher rolled from his perilous position. One hand was completely severed, and the man's arms and legs were crushed. Death was instantaneous. How the accident occurred is a mystery.

Fincher is survived by a wife and three small children, also a sister, Mrs. Kirk, in Hubbard City.

## SETTLEMENT IS REACHED.

At a meeting last night between the officers of the Brazos Valley Telegraph and Telephone company and the former employees of the company who quit work several weeks ago, an agreement as to terms of wages and conditions was reached, and the men will return to work Friday morning. The settlement was an amicable one.

## TOO LATE TO CLASSIFY.

LOST—Bunch of keys on ring in the vicinity of Sixth and Franklin streets. Return to 219 South Sixth street and receive reward. 28-2t

## MISS HYLTON IS TO TEACH

DOMESTIC ECONOMY IN GIRLS'  
DEPARTMENT OF THE HIGH  
SCHOOL.

## COURSE TO BE THOROUGH

L. P. Bailey Succeeds to Mr. Ferguson's Place—J. K. Barry Is a New Principal.

Miss Jennie Hylton, for five years a teacher of domestic economy in the Sherman schools, will have charge of that work this coming year at the Waco high school. Superintendent Lattimore made this announcement yesterday. The installation of this department will feature the improvements in the Waco school system since the close of the spring term. More than 150 girls are expected to enroll in Miss Hylton's classes.

"We have already bought part of the equipment for this department but we will wait until Miss Hylton arrives about September 8 before purchasing the rest of it," said Superintendent Lattimore. "We are expecting this department to accomplish great things. In one class we will teach the girls how to do plain and fancy sewing, both by hand and machinery; the cutting and fitting of garments, and hat trimming. In another class we will teach the preparation of foods, the value of foods, home sanitation and the cooking of foods for invalids. In short, this department will prepare the girl in everything pertaining to the table and housekeeping in a well ordered family. This work is not only of a good educational value, but it is of practical value and appeals to everybody."

## L. P. Bailey Succeeds Ferguson.

The assignment of teachers in the city schools will be announced Saturday. L. P. Bailey, former principal of the North Fourth street school, will be sent to Belle Hill to fill the place made vacant by the death of J. M. Ferguson, and his place will be filled by J. K. Barry. Mr. Barry is a graduate of A. & M. College of Mississippi, and for the past few years has been principal and teacher of science and mathematics in the Smithville high school.

N. C. Carr, principal of the South Third street school, has resigned to attend Columbia University, and W. R. Marrs, late superintendent of the Ferris schools, is to succeed him. Mr. Marrs was formerly principal in a Belton school.

## Supervisor of Drawing.

Another new office to be created in the city school system, with the opening September 16 is that of supervisor of drawing and writing. Miss Minnie Graves, who has had a similar place in the Temple schools, has been appointed. She will supervise this work in all the schools.

The new \$40,000 East Waco school will have its initial opening September 16. Workmen are now installing the desks and making other finishing touches in the interior of this building. More than \$20,000 has been spent on the improvement of the various school buildings this summer. Central and Bell's Hill schools received the biggest share of this improvement money. Additions were made to each of these structures.

## Stanfield at St. Paul.

L. R. Stanfield, director of manual training, has been spending the summer in St. Paul. He has been taking a special course along manual training lines in a St. Paul school and will introduce some new features in his department during the coming year.

Miss Elizabeth Dock, director of music at the high school, has been in charge of this same department at the West Texas Normal at Canyon during the summer. She is now at her home in Taylor.

"September 16 will open what I believe will be the most resourceful session the city schools have ever had," says Superintendent Lattimore. "Many of our teachers have been spending the summer in travel. I have gotten postal cards from them in all parts of the country."

## STRAW HATS TO GO IN.

Few Days Left for the Summer Headgear.

The death knell of the straw hat is being rung and by the middle of next month the obsequies will take place over the straw coverings that now thatch the heads of most men. While history furnishes no information concerning the identity of the person who decreed that straw hats are a dead issue after September, yet the decree is for the best. Waco merchants along about that date will be making some liberal offers on brand new felt ones.

The life of the average straw hat is not long, and by the middle of September it begins to look like a last year's bird's nest, hence it is well that it should go the way of things ephemeral. Very often the rays of the sun make this piece of headgear yellow like a bottle of peroxide will turn the color of a society girl's hair. In addition, the rain, the dust and the wind play such havoc with the straw hat that before the middle of August the wearer begins to wonder how he is going to make it last another month.

Some men, however, throw convention to the winds and put on their felt before September 1. Others ignore the decree and wear their straw hats a month after September 15. Not many dare defy the dictates of fashion, however, for fear their straw will be the object of many pointed fingers on the street after it has been once condemned.

## J. J. PASTORIZA TO BE INVITED

TO TELL PEOPLE OF WACO OF  
THE SOMERS SYSTEM OF  
TAXATION.

## OPERATES IN HOUSTON

Advocate of Single Tax Has Made  
Progress in Putting His Theories  
Into Practice.

Joseph J. Pastoriza of Houston is to be invited to come to Waco and explain the Somers system of taxation, the invitation to be extended by the city commission, and when the date is fixed the business men and the two business organizations are to be asked to join in a meeting to hear the discussion of the subject.

Mr. Pastoriza was for many years a merchant of Houston. He was one of the advocates of the Henry George single tax for years, but he received little encouragement in Houston among his friends. He built a "log cabin" far out in the suburbs of Houston, and told his friends that the improvement of the town would soon bring his log cabin into the residence district of the city. That has come to pass. He would entertain all who would join him at his "log cabin," and he was one of the most enthusiastic on the subject in the country. In course of time he decided to retire from active business, gave his faithful employees a part of his business, converted the balance of it into a stock company and disposed of it, and fixed himself for the life of a retired business man. He continued to study taxation and gradually became interested in the Somers system, which is something akin to the single tax theory, modified to meet present day conditions. On that platform he was elected one of the commissioners of the city of Houston, and since he became a commissioner he has installed the Somers system as far as it can be installed in this state.

## Something of the System.

Under the Somers system there is no taxation against personal property, but the statutes of Texas require that it be taxed, and in Houston they levy as little against it as possible. The same applies to improvements. There they tax the land for the greater part of the taxation that is levied, and being required under the law to tax improvements, they place a very small per cent of the levy against the improvements. Mr. Pastoriza's slogan is: "The city raises the land, and the people raise the houses," the inference being that as the city advances the value of land on the tax rolls, it makes the property too valuable to be idle, and the owner improves it, when he has the assurance that he will not be required to pay taxes on the full value of the improvements.

At the meeting of the commission yesterday, the board passed a resolution to invite Mr. Pastoriza to come to Waco and explain his system. None of the commissioners said he was either for or against the system. In fact, they all said they wanted to understand it, and they believe the people of Waco would like to hear Mr. Pastoriza.

The proposition to invite the member of the Houston commission to Waco came from Commissioner Caulfield, who said he would be willing to have an all-night session in order that the matter could be fully explained.

## WILSON IS A WINNER.

Sc Thinks Prof. Genheimer Who is Just Back Home.

"Wilson is undoubtedly a winner—he is the great favorite most everywhere I've been," said E. T. Genheimer, principal of the High School, who, with his wife has just returned from a seven week's trip through the north and east. "This split in the Republican party means a Democratic victory this fall. There is a lot of talk about Roosevelt, and some people back east think he will poll as many votes as Taft. I think Wilson is generally accepted as the victor, however."

Mr. and Mrs. Genheimer went to New York via the water route from Galveston. They visited many of the larger cities and then to Mr. Genheimer's old home at Wheelersburg, Ohio, for a four week's visit. Returning, Mr. Genheimer took a brief course in research work at the University of Chicago with a view to strengthening the political economy and civic departments at the High School during the coming season.

## BUYER BACK FROM NEW YORK.

F. Jackson, buyer and manager of the Sanger men's furnishing department, has returned from New York City, where he has been for the greater part of the past two months selecting the new styles in men's neckwear, shirts, hosiery, gloves and other furnishing goods. His purchases have been of a most exclusive nature. He has spent much time and effort in procuring shirts, neckwear and hosiery of a distinctive sort, including many novelties that will be shown with the beginning of the fall season in the most up-to-date haberdashery stores of the metropolis. In addition to these extensive purchases, the Sanger buying organization will be constantly in touch with each new creation as it is brought out by the designers and these will be added to the stock here almost as quickly as they are placed upon the market, thus assuring Sanger patrons of selection from the newest and choicest in men's furnishings at the same time that they are presented by the most exclusive furnishing goods stores of New York City.

## SOUTH NINTH TO BE CEMENT

THAT STREET IS TO BE INCLUDED  
IN SIDEWALK BUILD-  
ING NOTICE.

## LIGHT PLANT FRANCHISE

The Ordinance Allowing Privileges  
That Will Bring Big Power  
Plant Here Passed.

When the city commission took up the "sidewalk notice" yesterday, Commissioner Littlefield said he was ready to report on the request that was submitted some time ago by Mr. Mims and others of South Ninth street.

"I find," said Mr. Littlefield, "that South Ninth street is fourteen feet narrower than it should be, from the mattress factory to Dutton street. While I was investigating the matter, J. C. Moore, who is one of the parties involved, said he would be willing to move his fence back to the proper line, if the city will put in the sidewalk. There is not a block length of it, and I believe that it would be a good thing for the city to do it."

Mr. Caulfield—How do you know it is not city property?  
Mr. Littlefield—I should think the city would be in possession of it. There are several who have property over the line, Paul Maas, Mr. Moore, somebody on this side, and maybe a piece of the Dennis property. There are more people down there who favor cement than I thought would. I've got no further opposition to including South Ninth in cement territory.

Mayor Mackey—I don't think there is anything as important as cement sidewalks and I am glad to hear you make that report.

## Bond of the Power Company.

Allan D. Sanford presented the bond of the Texas Power and Light company, in the sum of \$50,000, with the Texas Fidelity and Bonding company as surety, for the faithful performance of all franchise rights, and it was approved and accepted.

Then the ordinance granting the rights to the Texas Power and Light company for the erection of the big central power plant on the east bank of the river, was called up for its third reading, and being carefully read, it was finally passed by a vote of the commission, and has been signed and certified to.

## Ordinance For Paving.

An ordinance providing for paving on North Fifth street, on South Seventh street, and allers between Austin and Waco streets, was finally passed.

## The Hot Well Contract.

The contract with the people who are to sink the hot well was called up, and after it was generally discussed, the city attorney was instructed to draw a contract that will safeguard the interests of the city.

## Other Matters.

The following daily licenses were granted: L. H. Hamilton, 55 head in herd; B. E. Jenkins, 35 head in herd. J. N. Gallagher filed a petition with the commission setting forth that he is the owner of certain lots in block 11, Barizon addition, lying between Vermont and Indiana streets on Ashland avenue. These lots extend eastward to the alley in said block and are interested in having said alley kept open; he represents to the commission that a part of the alley has been fenced and the alley materially obstructed, and he requests that the alley be located and the encroachments removed. The petition was referred to the mayor.

The commission approved the payment of the following semi-annual interest:

On \$67,000 second series street bonds, \$1,675.18.

On \$20,000 first series public works bonds, \$601.50.

On \$20,000 fifth series street bonds, \$601.50.

H. C. Park, agent of the Cotton Belt, asked the commission under what authority the city has two fire alarm wires on poles belonging to the company, to a point one mile west. The matter was referred to Commissioner Wright.

Commissioner Wright recommended that L. Lipshitz be allowed to construct a cement sidewalk at the corner of First and Franklin streets, where he expects to erect a warehouse, provided he conforms to the city grade. It was adopted.

The following bills were approved: Waco Fuel & Grain Co., \$54.38  
Pac F. Hopkins, \$56.30  
M. K. & T. Ry., \$34.60  
Southwestern States Portland & Cement Co., \$109.62  
Texas Concrete Co., \$34.50

## McLENNAN COUNTY HONEY.

Although McLennan county is not one of the known honey producing counties of the state, there is every opportunity for successful beekeeping here, if aparies were established.

T. N. Smiley, who has been associated in beekeeping during the past year, was in the city yesterday and is showing a very pretty article of honey, the total production of which in the vicinity from which the bees are kept, was 2000 pounds. It is clear, has a high class flavor, and is of excellent quality. Mr. Smiley had the benefit of horse mint, mesquite and alfalfa in the vicinity of his work with the bees, and the horse mint is especially good for flavor. He expects to continue bee keeping in this county, and success this year encouraging him. He has found that he can market locally all the honey which he can produce, and it was to establish relations with the consumer that he was in Waco yesterday.

## Beautiful New Fall Wash Fabrics

# Sanger Brothers

## WACO TO FIGHT RAISE

PROPOSED SWITCHING CHARGES  
GET STATEWIDE PROTEST.

Maximum Rate Would Be Raised from  
\$2.50 to \$5.50—Hearing in  
Austin, Sept. 10.

The Waco Freight Bureau, in connection with other similar organizations in Texas, is preparing to fight a proposed readjustment of the general scale of switching charges applicable within the state. The proposition will be given a hearing before the Railroad Commission at Austin, Sept. 10. If the proposed raise went into effect, several Waco concerns that have switched running out to their places of business would suffer, and a large number of other establishments in the state similarly situated off the main tracks would likewise be affected. The maximum rate now in force is \$2.50, the price for switching a car two miles or more. Under the proposed change the \$2.50 rate would apply to cars switched three miles, and the scale would be higher for each additional mile up to and including six, where the maximum of \$5.50 a car would be reached, a rate almost double the present maximum.

J. C. Dillard, traffic manager of the local freight bureau, will represent Waco in the fight against any raise in the rates.

## RUSHING TERMINAL WORK.

Katy Tracks Must Be Ready for Fall Business.

J. W. Walton, general superintendent, A. M. Acheson, chief engineer, and A. A. Matthews, maintenance engineer, of the Katy, made an inspection of the new Katy terminals in East Waco yesterday afternoon. It is understood they gave instructions to rush every detail of the work until it is completed.

"We want to have this work completed before October," said Mr. Walton in his car last night. "The bulk of the fall traffic begins at that time, and we will need all available terminal space everywhere. I am well satisfied with the progress, and believe the project will be finished on time. We have nothing definite to announce regarding the proposed double track in this section."

## RAILROAD VALUES THE SAME.

Aggregate of Tangible Assets Does Not Change.

The tangible values of McLennan county railroad property remains the same this year, according to the new tax rolls. Assessor Reed has sent one of the copies of the rolls to the state comptroller at Austin.

## MARRIAGE LICENSE.

H. C. Rogers and Mary Allen, Pierce Peoples and Willie Lumpkin, S. S. Guatis and Isabella Williams, negroes.

The life of a sash cord will be lengthened if it be dusted and wiped with a greased cloth occasionally.

## TO RIDE THE LIGHTS

MOTORCYCLE MAN IS TO LOOK  
AFTER STREET LAMPS.

Will Earn His Salary If He Keeps  
Hot on the Trail of  
Outage.

City Commissioner John W. Wright wants a motorcycle man to "ride the lights" and report "outage," believing that this plan will either pay for itself in the reduction of dark lamps or it will be worth the cost to the city because it will guarantee that all the lights are burning all the time.

The city has the motorcycle and it has the man. Heretofore two mounted men have been making the round of the city at night and have reported the lights which fail to burn. This takes a lot of time for the men on horseback, and often they are wanted to look after loose stock which is at large on the streets, while they are absent from the city hall on duty with the lights. The plan of Commissioner Wright is to utilize the motorcycle and the man who will be designated to keep at it, light inspection. He is to make two rounds a night, one before 12 o'clock and one after.

"The power and light company has one man looking after the lights," said Commissioner Wright to the board yesterday when the matter was being discussed. "If we keep a man right in behind them all the time, they will keep all the lights burning, and then we can take the motorcycle man off the work and make an inspection less frequently. There are 400 lights in the city now, and it is our business to look after them and see that they burn. The plan I propose will relieve the mounted men, and they can round up the cattle which are feeding on the lawns of the citizens."

The matter was referred to Mayor Mackey. All members of the commission favored the plan.

## REAL ESTATE TRANSFERS.
